Ordinance 2005.22 deleted "tape" before "recorded"

2-4-2 Agenda preparation and distribution

Section 2-4-2 was rewritten by Ordinance 99.32

A. Agendas for town council meetings shall be prepared by the agenda committee, which shall be made up of the mayor (or his or her designee), town manager, town clerk, town attorney, and any other person designated by the mayor or town manager. In the absence of the mayor, the vice mayor shall serve in his or her stead. The agenda committee shall review, adjust and agree to the items on each agenda. Although the agenda committee shall formulate each agenda, the final determination of what will be placed on an agenda will be in the sole discretion of the mayor, except as provided in the following subsections.

B. Notwithstanding the mayor's discretion of what items to place on the agenda, if three or more council members request an item to be placed on the agenda, it must be placed upon the agenda for the second regular town council meeting after the date of the request.

The wording of paragraph B was simplified by Ordinance 2005.22

C. Except in an emergency (as determined by the mayor or town manager), any person desiring to place an item on the agenda shall prepare and deliver a summary of the issue a reasonable time prior to the agenda committee meeting. If the request is made by an employee or staff member, it shall be delivered to the town manager, and if the request is made by a council member or member of the public, it shall be delivered to any member of the agenda committee.

- D. All blue sheets, reports, communications, ordinances, resolutions, contract documents, and other documents to be included in the "council packet" shall be submitted to the town manager for review a reasonable time prior to the agenda committee meeting, and the town manager will work with the department preparing the materials to ensure that all final materials are submitted to the town clerk or his or her designee prior to the final preparation of the council packet. The final agenda will be prepared by the town clerk, approved as to form by the town attorney, and signed by the mayor or, in his or her absence, the vice mayor. Council packets will be delivered to all council members at least 24 hours prior to the council meeting. These deadlines may be waived for any particular item by the mayor or town manager only if it is determined that it is impossible to meet the deadline.
- E. The agenda format as approved by resolution of the council will generally be used for all regular town council meetings, although variations may be made from time to time. For special meetings, study sessions, and other meetings, such as joint meetings with other entities, retreats, subcommittee meetings, and task force meetings, a relaxed format may be used which excludes many of the unnecessary items, as long as the format used complies with the open meeting law.
- F. Agenda items requiring action by the council which are generally routine items, not believed to be controversial, not requiring council discussion, or issues already discussed or heard at public hearing for which final adoption by resolution or ordinance is needed may be contained in a consent agenda. A single motion and affirmative vote "to approve the consent agenda" will approve all items in the consent agenda, including any resolutions or ordinances included in the consent agenda. Prior to a motion to pass the consent agenda, and upon the request of any council member, any item on the consent agenda can be removed from the consent agenda and considered immediately following the consent agenda. If the consent agenda is not passed, the council may discuss and vote upon each item listed on the consent agenda immediately after the vote fails to pass the consent agenda.
- G. In formulating the agenda, items for which there is attendance of speakers, presenters or members of the public, may be placed higher on the agenda to allow those individuals to leave after the item is completed.

Paragraph E was revised by Ordinances 2012.09 and 2005.22. The currently used agenda format was approved by Resolution 2012-66, adopted on August 7, 2012.

Ordinance 2005.22 inserted "after the vote fails to pass the consent agenda" for "thereafter"

2-4-3 Duties at meetings

- A. The mayor shall be the presiding officer of the council and the committee chairman shall be the presiding officer of the committee. If the mayor is absent, the vice mayor shall be the presiding officer until the return of the mayor. If both the mayor and vice mayor are absent, the town clerk shall call the meeting to order and a temporary presiding officer shall be elected by a majority of

those council members present, and that person shall serve until the return of the mayor or vice mayor. Upon the return of the mayor or vice mayor, the temporary presiding officer shall relinquish the chair when the business immediately before the council is completed. The word "mayor" as used in this section shall mean the presiding officer of the meeting.

- B. The mayor shall call the meeting to order, and lead or designate the leading of the pledge of allegiance and, if desired, an invocation/moment of silence. The mayor shall preserve strict order and decorum at all regular and special meetings of the council. The mayor may move, second and debate from the chair, subject only to those limitations of debate imposed on all members. The mayor shall not be deprived of any of the rights and privileges of a council member.
- C. The town clerk shall take the roll call. The town clerk shall announce each agenda item, reading into the record the item as listed on the agenda, sufficiently to advise the council and public as to what business is about to be considered by the council. The town clerk shall also read motions into the record as set forth in this section and perform other duties as set forth in this section or as directed by the mayor.
- D. The mayor may appoint a sergeant-at-arms at the council meetings, who shall carry out all orders and instructions given by the mayor for the purpose of maintaining order and decorum at the council meeting. Upon instructions of the mayor, it shall be the duty of the sergeant-at-arms to remove any person who violates the order and decorum of the meeting, as set forth below.

2-4-4 Procedures for meetings

The following procedures will generally apply to all regular town council meetings. For special meetings, study sessions and other meetings, such as joint meetings with other entities, retreats, subcommittee meetings, and task force meetings, relaxed procedures may be used which exclude any unnecessary items, as long as all procedures comply with the open meeting law.

- A. Call to order: the mayor shall call the meeting to order.
- B. Pledge of allegiance: the mayor or his or her designee shall lead the pledge.
- C. Invocation/moment of silence: if desired, the mayor or his/her designee shall lead the invocation/moment of silence.
- D. Roll call: roll shall be called by the town clerk. Any absence which has been explained to the mayor, town manager, or town clerk in advance shall constitute an "excused absence", and any absence which has not been explained in advance shall be an "unexcused absence". At the time of taking roll, the mayor shall place into the record whether a council member's absence is "excused" or "unexcused".

Ordinance 99.32 inserted the words "if desired" before "an invocation/moment of silence" in paragraph B

Ordinances 2012.09 and 99.32 revised the un-numbered introductory paragraph of section 2-4-4

Ordinance 99.32 added the words "if desired" to paragraph C

- E. Approval of agenda: the council shall vote to approve the agenda as written, or shall modify the agenda by moving items or deleting items, and shall approve the modified agenda. The council may, by majority vote, delete agenda items or consider items out of sequence from the printed agenda, so long as public notice is adhered to.
- F. Approval of minutes: the town clerk shall present minutes of previous meetings to the council for approval. Council members who were not present at a previous meeting may abstain from the vote approving those minutes, although this is not required. The council may approve multiple minutes by one vote, and if one or more council member expressed a desire to abstain from the vote on one set of minutes, the motion may be to approve the minutes "except as noted by council member(s) _____". Minutes may be considered as part of the consent agenda.
- G. Call to the public: persons wishing to address the council on any issue within the jurisdiction of the council, except for items scheduled for a public hearing at the same meeting, may do so during the call to the public. Each speaker is limited to three minutes. The mayor or council may limit the total time offered speakers. At the conclusion of call to the public, individual members of the council may respond to criticism made by those who have addressed the council, may ask staff to review the matter or may ask that the matter be placed on a future agenda.
- H. Staff reports: a council member may ask a staff member about a particular issue in his or her report, but discussion of any item mentioned in a staff report may not be held unless that item is properly placed on the agenda.
- I. Order of business: the town clerk, if directed by the mayor, shall announce each order of business, and the mayor shall then ask the council its pleasure on the item. A motion need not be made in order for an item to be discussed. Unless the council determines that no report is necessary, staff shall have an opportunity to report on the issue and will respond to council questions. The council may take action on any item listed on the agenda, and at any time that agenda item is before the council a motion may be made as provided in this chapter.
- J. Town manager's and mayor's reports: the town manager's and the mayor's reports may be written or oral. Any council member may ask the town manager or mayor about a particular item in his or her report, but discussion of any item mentioned in the report may not be held unless that item is properly placed on the agenda.
- K. Future agenda items: any council member may request that an item be placed on a future agenda. If any other council member agrees, he or she will show his or her support. Any item which is suggested and has support from at least two other council members must be scheduled for the second regular town council meet-

Ordinance 99.32 deleted two sentences from the end of paragraph E restricting an item from being considered again at the same meeting in some situations

Ordinance 99.32 added the words "of previous meetings" and "although this is not required" and inserted "may" for "shall" in paragraph F. Ordinance 2005.22 added the last sentence.

Paragraph G was amended by Ordinances 2012.09, 2000.21, and 99.32

Ordinance 99.32 deleted the words "a general" before "discussion" in paragraph H

Ordinance 99.32 deleted the words "a general" before "discussion" and made other minor wording revisions in paragraph J

ing following that meeting unless otherwise provided, and any suggested item which does not receive support from at least two other council members may be placed on a future agenda at the discretion of the mayor or the agenda committee.

2-4-5 Executive sessions

- A. Executive sessions may be placed on an agenda under the same circumstances as any other agenda item; however, approval of the town attorney of all executive sessions shall be required to assure compliance with the open meeting law. Executive sessions may only be placed on the agenda if the issue is allowed to be considered in an executive session pursuant to A.R.S. § 38-431.03.
- B. Under normal circumstances, executive sessions will be attended by the mayor and council, town manager, town attorney and town clerk. The mayor may direct or a majority of the council may vote to have other individuals attend the executive session.
- C. Executive sessions are not to be recorded, but the town clerk or another individual appointed by the mayor shall take written minutes of executive sessions to document the nature and extent of the discussions. All minutes of executive sessions shall be sealed and retained by the town clerk. Only those individuals who were present at a particular executive session or others specifically permitted by law may review the minutes of that session.

Ordinance 99.32 inserted "will" for "shall" in the first sentence and added "The mayor may direct or" at the beginning of the second sentence of paragraph B

Ordinance 2005.22 deleted "tape" before "recorded" and inserted "the Town clerk or another" for "an" in the second clause of paragraph C" Ordinance 99.32 inserted "or others specifically permitted by law" in paragraph C

2-4-6 Public hearing procedure

A public hearing may be placed on the agenda under the same agenda item as the discussion and action of the council. The normal procedure for public hearings shall be as set forth below.

Ordinance 2005.22 inserted "below" for "hereafter" in the introductory paragraph

- A. Calling agenda item: The agenda item shall be called by the town clerk as any other agenda item.
- B. Declaration of public hearing: the mayor shall declare that the council is now in public hearing.
- C. Proponent presentation: the proponent may make an opening statement to explain the item to the council and public. The mayor or council may limit the time for this statement as necessary.
- D. Staff report: staff shall have an opportunity to report on the issue and answer questions by the council.
- E. Written comments: written communications filed with the town or staff shall be presented to the council or read into the record.
- F. Public comments: testimony from members of the public shall be permitted. Members of the public shall be limited to five minutes per person, or less as designated by the mayor or council. The total time allotted to the public on any issue may be limited by the mayor or council, but in no event will the public testimony be limited to less than one hour.

- G. Council discussion: discussion by council members may be held at this time, or reserved until the council has come out of public hearing.
- H. Proponent closing statement: the proponent may be allowed a brief closing statement to rebut the statements made by the public, to offer a compromise, or to otherwise address the issue.
- I. Declaration of end of public hearing: Unless a majority of the council members object, the mayor shall declare the termination of the public hearing.
- J. Council discussion and vote: the agenda item will then be discussed and action taken as on any other agenda item.

Ordinance 99.32 inserted "may" for "shall" in paragraph H

Ordinance 99.32 inserted "the termination of the public hearing" for "public hearing as ended" in paragraph I

2-4-7 Discussion and voting procedure

- A. A quorum must be present in order for the council to consider or act upon any business. A quorum shall consist of a majority of the members of the council, excluding vacancies. If a quorum is not present, the meeting shall be called to order, and the only motion that can be made, considered and passed is a motion for adjournment.
- B. Each council member has a responsibility for compliance with A.R.S. § 38-501 *et seq.*, concerning conflicts of interest. Any member of the council who believes he or she has a conflict of interest, shall, immediately upon determining that a conflict exists, declare the conflict of interest and explain the basis for the conflict. That council member may then leave the room and shall refrain from taking any part in the meeting, discussion, consideration or determination of that issue. If that issue is not resolved at that meeting, that council member shall not discuss the matter with any other council member until the matter is finally resolved. The member who declared the conflict may return to his or her seat when that agenda item is completed.
- C. Every council member desiring to speak shall address the mayor, and upon recognition by the mayor, shall confine himself or herself to the question under debate, avoiding all personalities and indecorous language.
- D. A council member, once recognized, shall not be interrupted when speaking unless it is to call him or her to order. If a council member, while speaking, is called to order, he or she shall cease speaking until the question of order is determined, and, if in order, he or she shall be permitted to proceed.
- E. While the council is in session, the council members must preserve order and decorum. A member shall not, by conversation or otherwise, delay or interrupt the proceedings or the peace of the council or disturb any member while speaking or refuse to obey the orders of the council or mayor, except as otherwise provided in this title.

Ordinance 99.32 inserted "A quorum must" in place of "It will be necessary for a quorum to" and added "excluding vacancies" in paragraph A

Ordinance 99.32 inserted "may then leave" for "shall then leave" in paragraph B

- F. If a person in the audience wishes to address the council on an issue on the agenda which is not a public hearing, the mayor may permit the person to speak or may present the request to the council. If a majority of the council wishes to hear from the public on the issue, that person shall be permitted to speak; however, any public address shall be limited to five minutes per person and as otherwise restricted by the mayor or council. Written communications delivered to the mayor before the agenda item was called will either be read into the record or a copy delivered to each council member.
- G. Any person making personal, impertinent, or slanderous remarks, or who becomes boisterous while addressing the council, or who interferes with the order of business before the council, and who fails upon request of the mayor to cease that activity, shall be barred from further audience before the council for the remainder of that meeting unless permission to continue is granted by a majority vote of the council.
- H. A motion shall be made by beginning the statement with words such as, "I move that...." A motion must be stated clearly, and specifically state the contents of the motion. There can be no discussion after a motion is made until there is a second or the motion dies for lack of a second. If there is not a second, the mayor shall announce that the motion failed for lack of a second, and the discussion may continue, or the council may move on to the next agenda item.
- I. After the motion is made and seconded, the town clerk should read back the motion from the official record. The mayor may then call for discussion.
- J. At any time before the question is called on a pending motion, the council member who made the motion may ask that his or her motion be amended. At the time of the amendment, he or she shall clearly state the amendment, and the amendment shall be read back by the town clerk. If the council member who seconded the vote agrees, then the motion shall be considered amended voluntarily.
- K. At any time before the question is called on a pending motion, a council member may make a motion to amend the motion. At that time the discussion of the underlying issue will stop. If there is no second to the motion to amend, then discussion on the underlying issue will continue. If there is a second to the motion to amend, then all discussion will be confined to the motion to amend, and there shall be a vote on the motion to amend. If the motion to amend is adopted by a majority of the council, discussion will continue on the motion as amended. If the motion to amend fails, discussion will continue on the original motion on the floor.
- L. At any time before the question is called on a pending motion, the council member who made the motion may ask that his or her mo-

tion be withdrawn. The motion will be withdrawn only if the council member who seconded the motion agrees with withdrawal of the motion.

- M. Discussion shall end when the question is called or when the mayor determines there is no further discussion desired by any council member. The mayor shall direct the town clerk to read the motion, and the town clerk shall read the motion as made or amended. The only persons who can object to the form of the motion at this time are the council members who made and seconded the motion. If there is a conflict as to whether the motion as read is the motion as intended, the matter will revert to further discussion until the discrepancy is corrected.
- N. The mayor shall ask council members to designate their individual votes by announcing "aye" or "nay." If, prior to the vote or after the vote, any council member requests a roll call vote, the town clerk shall call roll, and each council member shall state his or her vote aloud.
- O. After the vote, the town clerk shall announce whether the motion failed or passed. If the vote was unanimous the town clerk shall so state, and if it was not, the town clerk shall state the individual votes for the record, stating the number of "aye" and "nay" votes. If any council member disagrees with the vote as read back by the town clerk, he or she shall immediately request a clarification or roll call vote. After the town clerk reads back the individual votes, silence by any council member displays his or her agreement with the vote as read.
- P. A motion passes if it receives more "aye" votes than the combined number of "nay" votes plus the number of council members abstaining from voting on the motion, except for abstentions based on conflict of interest. In the case of a tie on any motion, the motion fails.

Ordinance 99.32 inserted "their" for "his or her" in the first sentence of paragraph N

Ordinance 99.32 amended paragraph P by adding the first sentence, and deleted former paragraph Q defining "Emergency." Ordinance 2005.22 rewrote paragraph P.

2-4-8 Motions to reconsider

- A. Reconsideration of any action taken (or not taken) by the town council may be requested only by a council member who was on the prevailing side of the vote. Such a council member may request that the issue of reconsideration be placed on the agenda for discussion and possible action, although this request must be made prior to the start of the next regular town council meeting following the meeting at which the action was taken. If such a request is made, reconsideration will be placed on the agenda for the second regular town council meeting following the meeting at which the original action was taken. The agenda will list reconsideration of the vote as one item, and the re-vote on the issue as a separate item.
- B. When that agenda item is called, the council may discuss the reconsideration, but a motion to reconsider may only be made by a council member who voted with the prevailing side of the vote. A

Ordinance 2005.22 rewrote paragraph B

motion to reconsider may be seconded by any council member. The discussion and vote of the motion to reconsider shall be as for any other business before the council.

- C. If the motion to reconsider fails, the council will skip the discussion and vote of the original issue. If the motion to reconsider passes, the council will discuss and vote on the original issue as for any other business before the council, and any council member may make motions on the original issue.

Ordinance 2005.22 rewrote paragraph C

CHAPTER 2-5. ORDINANCES, RESOLUTIONS AND CONTRACTS

2-5-1 Prior approval

Before presentation to the council, all ordinances, resolutions and contract documents shall have been reviewed as to form by the town attorney and shall, when there are substantive matters of administration involved, be referred to the person who is charged with the administration of the matters. 2-5-2 Introduction

Ordinances, resolutions, and other matters or subjects requiring action by the council shall be introduced and sponsored by a member of the council, except that the town attorney or the town manager may present ordinances, resolutions and other matters or subjects to the town council, and any member of the town council may assume sponsorship of them by moving that the ordinance, resolution, matter or subject be adopted.

2-5-3 Reading of proposed ordinance

Ordinances shall be read, prior to adoption, but may be read by title only, provided that the council is in possession of printed copies of the ordinance. 2-5-4 Requirements for an ordinance

If the minimum number of applications needed is not received by the established deadline the town manager or designee shall continue to receive applications until enough have been received to fill the vacancy or vacancies.
- C. The town manager and/or designee shall review the applications, investigate the qualifications of the applicants, and forward all applications to the town council.
- D. The town council shall receive the applications at a public meeting not more than thirty days after the town manager's (or designee's) receipt of the applications. The town clerk shall mail each citizen applicant notice of the public meeting concerning the appointment.
- E. At the public meeting concerning the appointment, the town council may do one or more of the following:
1. Interview one or more applicants either in public or in an executive session scheduled for that purpose.
 2. Make one or more appointments.
 3. Order the solicitation of additional applications.
 4. Take any other action it deems appropriate.
- F. Citizen members of boards, committees and commissions shall serve without compensation, except for reimbursement of town-approved necessary and reasonable expenses incurred in accomplishing the purposes of the board, committee or commission.

2-6-3 Terms of office

- A. All terms of office for members of standing boards, commissions and committees shall be for four years, except that the initial terms of office for members of any new standing board, commission or committee shall be staggered so that the terms of no more than a simple majority of members ends every two years.

Ordinance 2009.18 substantially rewrote section 2-6-2. See Ordinance 96.13, 99.32, 2006.25 and 2008.15 for prior history.

2-6-5 Applicability of this chapter

Section 2-6-5 was added by Ordinance 2006.25

Except as they may later be modified by motion or resolution pursuant to section 2-6-4, the procedures set forth in this chapter shall apply to all new or existing boards, commissions and committees.

CHAPTER 2-10. INDEMNIFICATION OF OFFICERS AND EMPLOYEES

2-10-1 Persons covered

Section 2-10-1 was rewritten by Ordinance 99.32

All of the protections and benefits conferred by this chapter shall be enjoyed by any present or former mayor and each and all of the present or former members of the council, town officers, town magistrates, town employees, and all members of all town boards, committees, subcommittees, advisory committees and commissions which protected parties are referred to individually as a "town officer" and collectively or jointly as "town officials."

2-10-2 Indemnification and protection of town officials

- A. Any town officer and all town officials shall be exonerated, indemnified and held harmless by the town from and against any liability or loss in any manner arising out of, or occasioned by, his or her service as a town officer or official and based upon any claim by any third party that the town or any town officer or official, by any action or failure to act, damaged the property or infringed the rights of that third party, or of any other person on whose behalf that third party brings a claim or legal action, provided the officer or official acted, or failed to act, in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interests of the town.
- B. The right to indemnification provided for in subsection A of this section shall extend as well to any claim brought by, or on behalf

of, the town to recover damages alleged to have been occasioned to it or any of its property, by any act or failure to act of any town officer or official, except that no indemnification or exoneration shall be made in respect of any claim, issue or matter as to which the town officer or official shall have been adjudged to be liable to the town unless and only to the extent that the court in rendering judgment determines upon application that, despite the adjudication of liability but in view of all circumstances of the case, the officer or official is fairly and reasonably entitled to indemnity for those expenses as the court may deem proper. The court in which any such action or suit was brought may determine upon application that, in view of all of the circumstances of the case, indemnity for amounts paid in settlement is proper and may order indemnity for the amount so paid in settlement.

- C. In any case where indemnification is required under the provisions of subsections A or B of this section, the town treasurer shall pay, on behalf of the town officer or official, any money judgment and shall perform the onerous provisions of any court order which may be entered against him or her when the judgment or order has become final and no longer appealable, or has not been stayed pending appeal.
- D. In any case where any town officer or official is or may be entitled to be exonerated, indemnified and held harmless pursuant to the provisions of subsection A of this section, the town shall protect and defend the officer or official from and against any litigation commenced against him or her, by engaging and compensating competent legal counsel to conduct his or her defense, and by paying all court costs and any fees of opposing legal counsel taxed or imposed by the court having jurisdiction.
- E. In any case where any town officer or official is or may be entitled to be exonerated, indemnified and held harmless pursuant to the provisions of subsection B of this section, the town shall pay the expenses, including attorneys' fees and the cost of a bond or other security pending appeal, incurred in defending the civil action, suit or proceeding by the officer or official in advance of the final disposition of the action, suit or proceeding upon receipt of an undertaking by or on behalf of the town officer or official to repay that amount if it is ultimately determined that he or she is not entitled to be indemnified by the town as authorized in subsection B of this section.

Except as provided in state law, the purchasing director shall follow the procedure set forth in this section for all purchases and contracts subject to the formal bidding process:

The purchasing director shall have the authority to require a performance bond, in an amount as the purchasing director may deem sufficient, to secure the execution of a contract for construction, provided, however, that in a contract for construction in excess of \$10,000, a bond shall be required. In all cases of construction to which state law applies, any requirement for a bond shall be incorporated into the contract.

3-4-10 Purchases from mayor or town council members

Pursuant to A.R.S. § 38-503(C), the town, through its town council, may purchase supplies, materials and equipment not to exceed \$300 in cost in any single transaction or a total of \$1,000 annually from the mayor or any member of the town council without using competitive public bidding procedures according to an annually adopted town policy.

Ordinance 2010.02 revised section 5-7-6 to delete the word "false" and add "uniform and long form" in the title, add "uniform" in paragraph A, add paragraph B, and renumber paragraph C

On March 31, 2010, the town attorney corrected, as a scrivener's error under the authority of section 1-4-5, the numbering of sections 5-7-7 through 5-7-11. They had been inadvertently and incorrectly renumbered to 5-7-8 through 5-7-12 by Ordinance 2010.02

- B. If the person named in a civil code complaint admits the allegations in the complaint, the court shall enter judgment for the town and impose a civil sanction.
- C. Allegations in a civil code complaint may be admitted with an explanation. When this occurs, the court shall enter judgment for the town and impose a civil sanction determined with the court's due consideration of the explanation submitted.
- D. If the person named in a civil code complaint denies the allegations of the complaint, the court shall set the matter for hearing. All civil code violation hearings are informal and without a jury, and the town is required to prove the violation by a preponderance of the evidence. Technical rules of evidence do not apply, except for statutory provisions relating to privileged communications. A person who elects to be represented by counsel shall notify the court of this fact at least ten days prior to the hearing date. Hearings may be recorded. If the court finds in favor of the person, the court shall enter an order dismissing the civil code violation case. If the court finds in favor of the town, the court shall enter judgment for the town and impose a civil sanction.
- E. If the person served with a civil code complaint fails to appear on or before the time directed to appear or at the time set for hearing by the court, the allegations in the complaint shall be deemed admitted and the court shall enter judgment for the town and impose a civil sanction.
- F. A civil sanction imposed pursuant to this chapter shall not exceed \$1,000 unless otherwise designated in this code, the land development code, a town ordinance or under state law.
- G. Each day that a violation continues shall be considered a separate offense.
- H. In addition to civil sanctions, upon finding that a violation exists, the court shall order the person to perform whatever action is reasonably necessary to correct and abate the violation. An order to abate shall remain in effect for one year. When issuing an order to abate, the court shall advise a violator that additional fines will be imposed for failure to abate a violation and that the town may bring criminal charges for failure to obey the order to abate.

5-7-8 Appeal

Any party may appeal the judgment of the court. The appeal may be to the superior court in the same manner as promulgated by the supreme court. The posting of an appeal bond stays enforcement of the judgment.

5-7-9 Subpoena of witnesses; inapplicability of rules of civil procedure

- A. The town and the person charged with a civil code violation may subpoena witnesses as provided by A.R.S. § 13-4072. Witnesses are

Ordinance 2010.02 revised paragraph F to add "unless otherwise designated in this code, the land development code, a town ordinance or under state law," added paragraph G, and renumbered paragraph H.

not entitled to fees for appearing in connection with a civil code violation case.

- B. Except as otherwise provided in this chapter, the rules of civil procedure do not apply.

5-7-10 Failure to pay civil sanction; collection procedure

All civil sanctions imposed pursuant to this chapter shall be paid within 30 days from entry of judgment, except that the court may extend the time for payment or provide for installment payments if the court finds that payment within 30 days will impose an undue economic burden on the defendant. A civil sanction may be collected in the same manner as any other judgment in favor of the town.

5-7-11 Failure to obey order to abate violation; penalty

Any person who fails to obey an order to abate a violation issued by a magistrate, is guilty of a class 1 misdemeanor. A violation of this section is punishable by up to a maximum six months in jail and by a maximum fine of \$2,500; and by probation up to three years.

Section 5-7-11 was revised by Ordinance 2007.32, which added "class 1" before "misdemeanor," and Ordinance 2010.02, which deleted "special magistrate, or special limited magistrate" after "magistrate"

Any peace officer or town animal enforcement agent is authorized to use whatever force is reasonable and necessary to remove any animal from a vehicle or other enclosed space whenever it appears that the animal's life or health is endangered by extreme temperatures or lack of ventilation within the vehicle or other enclosed space.
- B. No peace officer or town animal enforcement agent shall be liable for damages to property caused by the use of reasonable force to remove an animal from such a vehicle or other enclosed space under those circumstances.
- C. Any peace officer or town animal enforcement agent is authorized and empowered to remove and impound any animal in plain view and suffering from life threatening exigent circumstances. The owner of any animal removed and impounded under the provi-

- D. Any of the provisions of this chapter may be waived as dictated by treatment under the direction of a licensed veterinarian.
- E. An owner of an animal charged with a violation of this chapter shall produce that animal for inspection or impoundment upon the request of the town animal enforcement agent. All owners shall be responsible for any and all applicable impoundment and boarding fees in connection therewith.

CHAPTER 6-5. VICIOUS OR DESTRUCTIVE ANIMALS

6-5-1 Keeping vicious or destructive animals prohibited

It is unlawful for any person to keep, control, harbor or otherwise have under control any animal which is vicious or destructive. This chapter shall not apply to zoos, wild animal parks or animal shelters, or to persons who are in compliance with an order of the town magistrate, issued pursuant to this chapter.

6-5-2 Violations; penalty

- A. The owner of any animal that bites, attempts to bite, endangers or otherwise injures or causes injury to human beings or other animals, or destroys, damages or causes damage to the property of another person is guilty of a class 1 misdemeanor.
- B. An owner of an animal charged with a violation of this chapter shall produce that animal for inspection or impoundment upon the request of the town animal enforcement agent. All owners shall be responsible for any and all applicable impoundment and boarding fees in connection therewith.
- C. It is unlawful for any person to fail to comply with an order of the magistrate regarding a vicious or destructive animal. It is a separate offense for each day that the person fails to comply with the magistrate's order.
- D. In addition to any other penalty, if the victim suffers economic loss as a result of a violation of this chapter, the magistrate shall order the owner to pay restitution to the victim, in the full amount of the victim's economic loss, as determined by the magistrate. This remedy shall not abridge any civil cause of action by the victim.
- E. In addition to any other penalty, upon the declaration of an animal as vicious or destructive, the magistrate shall order one or more of the following:
 - 1. That the animal be kept in an enclosure that is high enough so that the animal cannot bite, harm or injure anyone outside the enclosure. The enclosure and property where it is located shall be posted with conspicuous warning signs, and at no time shall the animal leave the enclosure unless it is muzzled, leashed and under the control of an adult human being; or

Paragraphs D and E were rewritten by Ordinance 2007.13

G. In any proceeding brought to enforce a violation of this chapter, the following procedure shall be used.

2. Within ten days of the date of impoundment, the town magistrate shall conduct a hearing provided under [chapter 6-6](#).
3. The owner of the animal shall be notified of this hearing by the court. Upon proof of notification, the hearing may proceed in the owner's absence.

CHAPTER 6-6. DANGEROUS ANIMALS

6-6-1 Definitions

- A. A dangerous animal means one which has been declared to be vicious or destructive pursuant to this title or displays or has a tendency, disposition or propensity, as determined by the town animal enforcement agent, to:
1. Injure, bite, attack, chase or charge, or attempt to injure, bite, attack, chase or charge a person or domestic animal in a threatening manner; or
 2. Bare its teeth or approach a person or domestic animal in a threatening manner.
- B. A dangerous animal does not include an animal used in law enforcement, nor does this chapter apply to animals in custody of zoos or wild animal parks, animals placed in animal shelters, animals under care of veterinarians or wild animals.

6-6-2 Declaring an animal dangerous; notice

- A. The town animal enforcement agent shall develop guidelines to determine if an animal is a dangerous animal.
- B. Whenever the town animal enforcement agent has reason to believe an animal may be dangerous, an evaluation of the animal shall be conducted.

C. If the town animal enforcement agent declares that an animal is dangerous, the owner shall be notified and issued an order of compliance. Once an animal is declared dangerous, the animal is dangerous until a hearing officer or judge determines otherwise. If the owner is known, he shall be provided with a written notice of his right to file, within five days of receipt of the notice, a written request with the town animal enforcement agent for a hearing to determine if the animal is dangerous. If the owner's whereabouts cannot be determined or the animal poses a threat to public safety or domestic animals, the animal shall be impounded and notice shall be posted on property or mailed forthwith to him at his last known address by registered or certified mail, return receipt requested.

6-6-3 Hearing; burden of proof; appeal

- A. The owner of the animal may request a hearing to contest the declaration of dangerousness or contest the confinement conditions ordered by the town animal enforcement agent.
- B. If the owner of an impounded animal fails to appear at a hearing or fails to request a hearing, the animal shall be forfeited to the town animal enforcement agent to be humanely destroyed.
- C. If the owner of a non-impounded animal fails to appear at a hearing or fails to request a hearing, the animal is declared to be dangerous and the order of compliance shall remain in effect.
- D. After request for a hearing, the town animal enforcement agent shall set a hearing date within five working days at a time and place designated by the town animal enforcement agent. The hearing shall be conducted by a hearing officer selected by the town animal enforcement agent.
- E. The hearing shall be held in an informal manner and a record of the hearing shall be made by stenographic transcription or by electronic tape recording. The rules of evidence do not apply, and hearsay is admissible.
- F. It is the burden of the owner of the animal to establish by a preponderance of the evidence that the animal is not dangerous. The owner may be represented by counsel and present witnesses at the animal owner's cost.
- G. The hearing officer shall make a written decision within five working days of the hearing and notify the owner of the animal of the decision.
- H. If the decision of dangerousness is sustained by the hearing officer, the owner of the animal shall obey the order of compliance issued by the town animal enforcement agent within the time given by the order of compliance or ten days whichever is more.
- I. If the animal is found not to be dangerous, the order of compliance is null and void. The finding that an animal is not dangerous does

not prevent the town enforcement agent from declaring an animal dangerous again if the agent has additional reasons to believe the animal is dangerous after a new evaluation of the animal is conducted.

- J. Appeal of the decision of the hearing officer shall be by way of special action to the superior court on the record of the hearing. If either party claims the record to be incomplete or lost, and the hearing officer who conducted the hearing so certifies, a new hearing shall be conducted before that officer. The appealing party shall bear the cost of preparing the record of the hearing on appeal. No appeal shall be taken later than thirty days after the decision.

6-6-4 Order of compliance

- A. When an animal is declared dangerous, the town animal enforcement agent shall issue an order of compliance requiring the owner within 30 days to:

1. Confine the animal sufficiently to prevent the animal's escape as follows:
 - a. The town animal enforcement agent shall determine the appropriate fencing requirements for the size and nature of the animal. The town animal enforcement agent may require a fence including gates to be six feet in height; the fence from five feet in height to six feet in height to incline to the inside of the confinement area at a forty-five degree angle from the vertical; or that the confinement area be wholly covered by a material strong enough to keep the animal from escaping.
 - b. The town animal enforcement agent may require the bottom of the confinement area to be of concrete, cement or asphalt, or of blocks or bricks set in concrete or cement; or if the bottom is not provided, then a footing of such material shall be placed along the whole perimeter of the confinement area to a depth of one foot below ground level, or deeper if required by the town animal enforcement agent.
 - c. The gates to the confinement area shall be locked at all times with a padlock except while entering or exiting.
 - d. The town animal enforcement agent may require temporary confinement measures until the order of compliance has been obeyed or the hearing officer determines that the animal is not dangerous. If the owner does not immediately comply with the temporary confinement requirements, the animal shall be impounded.
2. Muzzle and restrain the animal outside the confinement area with a leash, chain, rope or similar device not more than six feet in length sufficient to restrain the animal and under the control of a person capable of preventing the animal from engaging in any prohibited behavior.

3. Post a sign on every gate or entry way to the confinement area stating "beware of dangerous animal, per Marana animal control [title 6](#)."
4. Obtain and maintain liability insurance in a single incident amount of \$50,000, unless the animal has been declared to be vicious or destructive pursuant to this title, in which case the amount of insurance shall be no less than \$250,000, to cover any damage or injury that may be caused by the dangerous animal. The town animal enforcement agent shall maintain a registry of the animals, owners and insurance carrier for each dangerous animal.
5. Pay the reasonable cost to the town animal enforcement agent to tattoo the animal with an identification number. The town animal enforcement agent shall maintain a registry of the numbers and the owners of the animals.
6. Have a licensed veterinarian spay or neuter the animal at the owner's expense. The owner shall obtain written certification signed by the veterinarian that the spaying or neutering has been performed.

6-6-5 Consent to inspection; inspection; order of compliance; seizure

- A. By continuing to own an animal declared dangerous, an owner gives consent to the town animal enforcement agent or any law enforcement officer to inspect the animal declared dangerous, the premises where the animal is kept, the liability insurance documents required for the animal, and the veterinarian's certificate of spaying or neutering for the animal.
- B. The town animal enforcement agent may seize and impound the dangerous animal if the owner fails to obey the order of compliance. Five days after the seizure, the town animal enforcement agent may humanely destroy the animal unless the owner has demonstrated obedience to the order of compliance. The owner of the animal is responsible for any impound fees. If the owner of the animal demonstrates proof that the order of compliance has been obeyed, then the animal will be returned to the owner after payment of impound fees. Any action taken under this chapter shall be in addition to any available criminal penalties.

6-6-6 Required acts and unlawful activities

- A. An owner of an animal declared dangerous shall obey the order of compliance.
- B. An owner of an animal declared dangerous shall not sell, give away, abandon or otherwise dispose of the animal without notifying the town animal enforcement agent in writing in advance.
- C. An owner of an animal declared to be dangerous shall provide proof of liability insurance and the veterinarian's certificate of

spaying or neutering to the town animal enforcement agent upon demand.

- D. An owner of an animal declared dangerous shall not prevent or try to prevent inspection of the animal or the premises where the animal is kept.
- E. When the owner of an animal is notified that the town animal enforcement agent is evaluating an animal or wants to evaluate an animal to determine if the animal is dangerous, the owner of the animal shall present the animal for inspection within 24 hours of a request by the town animal enforcement agent. The owner shall not sell, give away, hide or otherwise prevent the town animal enforcement agent from making an evaluation of the animal.
- F. The owner of an animal declared to be dangerous shall prevent the animal from running at-large as defined in this title.
- G. The owner of an animal declared to be dangerous shall prevent the animal from biting, injuring or attacking any person or domestic animal outside of the confinement area.

6-6-7 Minimum penalties; enhancement

- A. Wherever in this chapter any act is prohibited or declared to be unlawful or the doing of any act is required or the failure to do an act is declared to be unlawful, the violation of that provision is a misdemeanor punishable, except for the penalties already set forth in this title, by a fine of not less than \$100 and not more than \$1,000 and/or by imprisonment for not more than six months. No judge may grant probation to or suspend the imposition of the minimum fine prescribed in this paragraph. In addition, a person may be placed on probation for not more than three years. This shall not be construed to affect, in any way, the imposition of the minimum mandatory penalties provided in this paragraph.
- B. Each day any violation continues or occurs shall constitute a separate offense.

CHAPTER 6-7. EXCESSIVE NOISE CAUSED BY ANIMALS OR BIRDS

6-7-1 Excessive noise prohibited

It is unlawful to own, possess, harbor or control any animal or bird which frequently or for continuous duration howls, barks, meows, squawks or makes other sounds, if they are clearly audible sounds beyond the property line of the property on which they are conducted and they disturb the public peace, quiet or comfort of the neighboring inhabitants.

6-7-2 Violations; penalty

- A. The provisions of this chapter shall be enforced and administered by the town animal enforcement agent and appropriate local law enforcement.
- B. A violation of any provision of this chapter is a civil infraction and will be adjudicated by the town magistrate.
- C. If the owner of the animal or bird which has engaged in an activity prohibited by this chapter cannot be determined, the owner, lessee or occupant of the property on which the activity is located shall be deemed responsible for the violation.
- D. Each days' continuance of a violation under this chapter shall be determined a separate offense.
- E. A fine of not less than \$50 or more than \$300 shall be imposed for each violation.

6-7-3 Exemptions

Persons wishing to continue activities which constitute a violation of this chapter but were commenced prior to January 4, 1994 may seek an exemption from the town magistrate. The exemption may be granted if the magistrate finds that strict application of this chapter would cause undue hardship and that there is no reasonable or productive alternative method of engaging in the activity.

CHAPTER 6-8. AUTHORITY TO ENFORCE, REMOVE AND IMPOUND**6-8-1 Authority to enforce**

Any peace officer or town animal enforcement agent is hereby authorized and empowered to enforce the provisions of this title and to issue citations for violations of it.

- C. All fees, including veterinary fees, incurred to remove, impound, board, care for and/or microchip an animal under the authority of this title shall be paid by the animal's owner.

 2. ensure that surface mining operations as defined in [chapter 9-10](#) are maintained to standards of repair, orderliness, neatness, sanitation, and safety acceptable to industry standards and the town, and

- B. The town shall have a reasonable time within which to investigate the application and the background of the applicant, all owners and controlling persons, the designated agent and the manager. The investigation shall include an inspection of the premises of the massage establishment or proposed massage establishment by the appropriate town departments, as well as any appropriate federal, state or county agencies, for the purpose of ensuring compliance with this chapter and any code, statute or regulation relating to human health, safety or welfare or structural safety. Based on the investigation, the departments shall recommend to the license inspector approval or denial of the license.
- C. to compliance with any of the provisions of this chapter. For purposes of this paragraph, an active massage establishment license includes a license that has been suspended or revoked, provided that a revoked license is no longer active after passage of the period of time for appeal with no appeal taken, or after the hearing officer has ruled in the event an appeal is taken and the decision is in the town's favor. For a massage establishment license renewal, the licensee must submit a current listing of massage therapists working at the establishment, and each massage therapist's Arizona state license number with date of license expiration. The licensee must also submit a current listing of managers working at the establishment, and each manager's town license number with date of license expiration. The license inspector is authorized to investigate and obtain necessary information to update the original license application and to determine whether the license should be renewed. For a massage establishment license renewal, the investigation may include an inspection of the premises of the massage establishment by the appropriate town departments, as well as any appropriate federal, state or county agencies, for the purpose of ensuring compliance with this chapter and any code, statute or regulation relating to human health, safety or welfare or structural safety. No license shall be renewed unless the licensee complies with all provisions of this chapter.
- B. - A. The license of a massage establishment or license of a manager may be denied, revoked, suspended for a period not to exceed 60

On January 7, 2013, the town attorney corrected the spelling of "licensee" in the third sentence as a scrivener's error by authority of section 1-4-5 (B)

Ordinance 2012.13 inserted the third sentence to paragraph A. Ordinance 2011.22 inserted "investigate and" in the fifth sentence and added the sixth sentence to paragraph A

Ordinance 2011.22 inserted "for a period not to exceed 30 calendar days" in paragraph A. Ordinance 2012.13 revised it to 60 calendar days and made various other changes to section 9-4-14, including adding subparagraphs (A)(16) through (26).

calendar days, or denied renewal upon any one or more of the following grounds:

2. The applicant, licensee, designated agent or controlling person has been convicted within the past five years in a court of competent jurisdiction of a felony or misdemeanor offense having a reasonable relationship to the functions of a massage establishment or a massage therapist, including but not limited to any offense involving dishonesty, deceit, theft, assaultive conduct or sexual misconduct. The fact that the conviction is being appealed or has been set aside shall have no effect.
3. The applicant, licensee, designated agent or controlling person has been convicted within the last five years of any offense proscribed by title 13, chapters 14, 32, and 35.1 of the Arizona revised statutes, or any offense committed outside this state or town that if committed in this state or town would constitute a violation of any offense proscribed by title 13, chapters 14, 32, and 35.1 of the Arizona revised statutes. The fact that the conviction is being appealed or has been set aside shall have no effect.
4. The applicant, licensee, designated agent or controlling person is guilty of untrue, fraudulent, misleading, or deceptive advertising.
5. The applicant, licensee, designated agent or controlling person is engaged in the business of massage therapist, manager, or massage establishment under a false or assumed name, or is impersonating another therapist or manager of a like or different name.
6. Any violation of this chapter. This paragraph shall apply regardless of the location at which the violation occurred.
7. In the case of a massage establishment, any person who did not qualify as a controlling person at the time the license was issued has acquired a 20% or greater interest in the licensee.
8. In the case of a massage establishment, the massage establishment has operated at a location that has not been licensed for use by the town.
9. In the case of a massage establishment, the licensee has ceased to use the license for purposes of offering massage therapy. The failure to offer massage therapy at a massage establishment for 30 consecutive days shall create a rebuttable presumption that the licensee has ceased to use the license for purposes of offering massage therapy.

10. In the case of a massage establishment, the applicant or licensee has failed to maintain in the records of the license inspector the name of an individual as a designated agent.
11. The applicant, licensee, manager, any employee or the designated agent has photographed a customer while the customer was on the premises of a massage establishment and located within any treatment room, restroom, locker room or dressing room, without the express, written permission of that customer. For purposes of this subparagraph the word "photographed" shall mean the use of any electronic or mechanical device to record, reproduce or transmit an optical image.
12. The applicant, licensee, designated agent, manager or controlling person knows or should have known that prostitution, indecent exposure or pornographic acts are occurring or have occurred in the operation of the massage establishment.
13. The license application was falsified.
14. The applicant, licensee or a controlling person has an outstanding warrant for his or her arrest.
15. The applicant was a controlling person for a massage establishment license that was revoked within the previous five years for an act or acts that occurred while the controlling person was a controlling person for the licensee.
16. In the case of a massage establishment, the licensee has failed to maintain in the records of the license inspector the name and license number of each person employed as a manager at the massage establishment.
17. The applicant or licensee is under 18 years of age.
18. The license application is incomplete and the applicant fails to provide the missing information within the timeframe set forth in a written notice specifying the missing or incomplete information and provided to the applicant by the license inspector.
19. In the case of a massage establishment, business has been conducted in an unlawful manner.
20. In the case of a massage establishment, business has been conducted in such manner as to constitute a breach of the peace or a menace to the health, safety or general welfare of the public.
21. The applicant, licensee, designated agent or controlling person is delinquent in payment to the town of taxes, fees, fines or penalties assessed against or imposed upon the applicant, licensee, designated agent or controlling person in relation to a massage establishment business or arising out of any other business activity of the applicant, licensee, designated agent or controlling person.
22. The applicant failed to provide the sworn statement or supporting information required by section 9-4-9 C.

The cross-reference in subparagraph 22 was corrected by the town attorney on December 13, 2012, by authority of town code section 1-4-5

23. In the case of a massage establishment, the establishment is not in compliance with the requirements listed in section 9-4-19.
 24. In the case of a massage establishment, the application is for a massage establishment to be located in a physical space at which a licensed massage establishment is in operation. For purposes of this subparagraph, there shall be a rebuttable presumption that a location with an active massage establishment license has a massage establishment in operation.
 25. In the case of a massage establishment, the application is for a massage establishment to be located on the same business premises whereon is also conducted or operated a sexually oriented business as defined in title 9 of the town code, or a bar, cocktail lounge, photography studio, model studio, art studio, motion picture studio/theater or telephone answering service.
 26. Any other reason or reasons deemed sufficient by the license inspector, as long as the reason or reasons are based upon statutes, ordinances, codes or substantive policy statements which provide justification for the denial, suspension, revocation or nonrenewal of the license.
- B. The massage establishment license shall be denied if any of the following persons would be disqualified under this chapter:
1. The president or other executive officers of a corporate applicant;
 2. Each general partner of an applicant that is a limited partnership or any partner of a non-limited partnership applicant;
 3. The managing member, officer or employee of the applicant;
 4. Any controlling person of the applicant.
- C. If a licensee appeals the suspension, revocation or nonrenewal of an existing license pursuant to the appeal provisions of this chapter, the licensee shall be permitted to continue operations under the previously effective license until resolution of the appeal.

Ordinance 2011.22 added paragraph C

9-4-15 Procedure for denial, suspension, revocation or nonrenewal; appeals

The notice shall include justification for the denial, suspension or revocation with references to the statutes, ordinances, codes or substantive policy statements on which the denial, suspension or revocation is based. The notice shall be personally served upon the licensee or upon any responsible person at the business address on file with the license inspector or at the actual business address, if different, or mailed by certified mail or other method for which proof of receipt may be obtained by the license inspector to the address of the ap-

- B. Within ten business days after the effective date of the notice, the applicant or licensee may provide a written request for an appeal hearing to the license inspector, which shall include a statement of reasons why the license should not be denied, suspended or revoked. If the license inspector does not receive a request for appeal hearing within this time period, the denial, suspension or revocation shall be final.
- C. Within seven business days after receipt of the applicant's or licensee's request for appeal hearing, the license inspector shall either grant the license or rescind the suspension or revocation or schedule an appeal hearing before the hearing officer, as designated by the town manager or the town council. The applicant or licensee shall be notified in writing by any of the means specified in paragraph A of this section of the date, time and location of the hearing. The hearing shall be scheduled not less than 15 and no more than 30 calendar days after receipt by the license inspector of the applicant's or licensee's request for hearing. - D. Within five business days after completion of the hearing, the hearing officer shall render a written decision and shall cause a copy of the decision to be mailed by certified mail to the address specified by the applicant or licensee. The hearing officer's decision shall be deemed final five business days after it is mailed and shall constitute final administrative action.
- E. After a denial, suspension or revocation has been upheld by the hearing officer, the applicant or licensee may seek judicial review of the administrative action in any court of competent jurisdiction.

9-4-16 Application after denial, revocation or nonrenewal

No applicant may apply for a license within one year of the date of a denial, revocation or nonrenewal of the applicant's license, unless the cause of the denial, revocation, or nonrenewal has been remedied to the satisfaction of the license inspector and at least 90 calendar days have elapsed since the effective date of the denial, revocation or nonrenewal.

- B. A massage establishment shall not change the services it offers, the use or configuration of its premises, its business hours, its mailing address or its manager or designated agent without first providing notice of the change to the license inspector on the form prescribed by the license inspector for that purpose.

The applicable fee shall be due and payable to the town upon the town’s receipt of the application.

CHAPTER 9-8. CABLE TELEVISION

9-8-1 Intent

- A. The town, pursuant to applicable federal and state law, is authorized to grant one or more nonexclusive franchises to construct, operate, maintain and reconstruct cable television systems within the town limits.
- B. The town council finds that the development of cable television systems has the potential of having great benefit and impact upon the residents of Marana. Because of the complex and rapidly changing technology associated with cable television, the town council further finds that the public convenience, safety and general welfare can best be served by establishing regulatory powers which should be vested in the town or such persons as the town shall designate. It is the intent of this chapter and subsequent amendments to provide for and specify the means to attain the best possible cable television service to the public and this finding shall

- A. This chapter shall be construed in a manner consistent with all applicable federal and state laws.

- C. This chapter shall apply to all franchises granted or renewed after the effective date of this chapter. It shall further apply to the extent permitted by applicable federal or state law to all existing franchises granted prior to the effective date of this chapter.

9-8-8 Franchise non-transferable

- A. Grantee shall not sell, transfer, lease, assign, sublet or dispose of, in whole or in part, either by forced or involuntary sale, or by ordinary sale, consolidation or otherwise, the franchise and/or cable system or any of the rights or privileges granted by the franchise, without the prior consent of the council which consent shall not be unreasonably denied or delayed and shall be denied only upon a good faith finding by the town that the proposed transferee lacks the legal, technical or financial qualifications to perform its obligations under the franchise agreement. Any attempt to sell, transfer, lease, assign or otherwise dispose of the franchise and/or cable system without the consent of the council shall be null and void. This provision shall not apply to sales of property or equipment in the normal course of business. No consent from the town shall be required for a transfer in trust, mortgage, or other instrument of hypothecation, in whole or in part, to secure an indebtedness, or for a pro forma transfer to a corporation, partnership or other entity controlling, controlled by or under common control with grantee.
- B. The following events shall be deemed to be a sale, assignment or other transfer of the franchise and/or cable system requiring compliance with this section:
1. The sale, assignment or other transfer of all or a majority of grantee's assets;
 2. The sale, assignment or other transfer of capital stock or partnership, membership or other equity interests in grantee by one or more of its existing shareholders, partners, members or other equity owners so as to create a new controlling interest in grantee;
 3. The issuance of additional capital stock or partnership, membership or other equity interest by grantee so as to create a new controlling interest in grantee; and
 4. The entry by the grantee into an agreement with respect to the management or operation of the grantee and/or the system.
- C. The term "controlling interest" as used in paragraphs B.2 and 3 above means majority equity ownership of the grantee.
- D. Except as provided below, no grantee may sell or otherwise transfer ownership in a franchise and/or cable system, without the prior consent of the council which consent shall not be unreasonable denied or delayed and shall be denied only upon a good faith finding by the town that the proposed transferee lacks the legal technical or financial qualifications to perform its obligations under the franchise agreement following either the acquisition or initial construction of the system by grantee. In the case of a sale of multiple systems, if the terms of the sale require the buyer to subsequently transfer ownership of one or more of the systems to one or more third parties, the transfer shall be considered a part of the initial

Ordinance 2005.22 rewrote and designated this paragraph as "C" and renumbered the following paragraphs to conform

transaction. No consent from the town shall be required for the following:

1. Any transfer of ownership interest in any franchise and/or cable system which is not subject to federal income tax liability;
 2. Any sale required by operation of any law or any act of any agency, any state or political subdivision or the town; or
 3. Any sale, assignment, or transfer, to one or more purchasers, assignees, or transferees controlled by, controlling, or under common control with, the seller, assignor, or transferor.
- E. In the case of any sale or transfer of ownership of any franchise and/or cable system following acquisition of the system, the town shall have 120 days to act upon any request for approval of the sale or transfer that contains or is accompanied by information required by FCC regulations, the requirements of this chapter and any other reasonable information the town, in its sole discretion, requests. If the town fails to render a final decision on the request within 120 days from receipt by the town of all required information, the request shall be deemed granted unless the requesting party and the town agree to an extension of time.
- F. Grantee shall notify the town in writing of any foreclosure or any other judicial sale of all or a substantial part of the franchise property of the grantee or upon the termination of any lease or interest covering all or a substantial part of the franchise property. The notification shall be considered by the town as notice that a change in control of ownership of the franchise has taken place and the provisions under this section governing the consent of the town to the change in control of ownership shall apply.
- G. For the purpose of determining whether it shall consent to the change, transfer, or acquisition of control, the town may inquire into the legal, financial, and technical qualifications of the prospective transferee or controlling party, and grantee shall assist the town in any such inquiry. The transferee shall be required to establish that it possesses the legal, technical and financial qualifications to operate and maintain the system and comply with all franchise requirements for the remainder of the term of the franchise. If, after considering the legal, financial, and technical qualities of the applicant and determining that they are satisfactory, the town finds that the transfer is acceptable, the town shall transfer and assign the rights and obligations of the franchise. The consent of the town to the transfer shall not be unreasonably denied.
- H. Any financial institution having a pledge of the grantee or its assets for the advancement of money for the construction and/or operation of the franchise shall have the right to notify the town that it or its designee satisfactory to the town shall take control of and operate the cable television system, if a grantee defaults in its financial obligations. The financial institution shall also submit a plan for the operation within 30 days of assuming control that will

insure continued service and compliance with all franchise requirements during the term the financial institution exercises control over the system. The financial institution shall not exercise control over the system for a period exceeding one year unless extended by the town in its discretion and during that period of time it shall have the right to petition the town to transfer the franchise to another grantee.

9-8-9 Purchase by town upon expiration or revocation

- A. If, subject to the provisions of the cable act, a renewal of a franchise is denied, the town may purchase to the extent permitted by Federal law and upon payment to the grantee of the cable systems' fair market value as a going concern, exclusive of any value allocated to the franchise itself, that portion of grantee's cable system serving the town.
- B. Subject to the cable act, if a franchise is revoked for cause, the town may, to the extent permitted by federal law, acquire that portion of the cable system serving the town upon payment of an equitable price.

9-8-10 Geographical coverage

- A. Grantee shall design, construct and maintain the cable television system to have the capability to pass every dwelling unit in the service area, subject to any line extension requirements of the franchise agreement.
- B. After service has been established by activating trunk and/or distribution cables for any part of the service area, grantee shall provide cable service to any requesting subscriber within that service area within 30 days from the date of request, provided that the grantee is able to secure all rights-of-way necessary to extend service to that subscriber within the 30 day period on reasonable terms and conditions.

9-8-11 Nonexclusive franchise

Any franchise granted shall be nonexclusive. The town specifically reserves the right to grant, at any time, any additional franchises for a cable television system or any system component, as it deems appropriate, subject to applicable state and federal law, provided, however, that no franchise shall be granted on terms materially less burdensome or more favorable than any other franchise granted under this chapter.

9-8-12 Multiple franchises

- A. The town may grant one or more franchises for a service area. The town may, in its sole discretion, limit the number of franchises granted, based upon, but not necessarily limited to, the requirements of applicable law and specific local considerations; such as:
 - 1. The capacity of the public rights-of-way to accommodate multiple coaxial cables in addition to the cables, conduits and pipes

of the utility systems, such as electrical power, telephone, gas and sewerage.

2. The impact on the community of having multiple franchises.
 3. The disadvantages that may result from cable system competition, such as the requirement for multiple pedestals on residents' property, and the disruption arising from numerous excavations of the rights-of-way.
 4. The financial capabilities of the applicant and its guaranteed commitment to make necessary investment to erect, maintain and operate the proposed system for the duration of the franchise term.
- B. Each grantee awarded a franchise to serve the entire town shall offer service to all residences in the town, in accordance with construction and service schedules mutually agreed upon between the town and grantee, and consistent with applicable law.
- C. Developers of new residential housing with underground utilities shall provide conduit to accommodate cables for at least two cable systems in accordance with the provisions of section 9-8-19D.
- D. The town may require that any new grantee be responsible for its own underground trenching and the costs associated therewith, if, in the town's opinion, the rights-of-way in any particular area cannot feasibly and reasonably accommodate additional cables.
- E. Any additional franchise granted by the town to provide cable service in a part of the town in which a franchise has already been granted and where an existing grantee is providing service shall require the new grantee to provide service throughout its service area within a reasonable time and in a sequence which does not discriminate against lower income residents.

9-8-13 Initial franchise applications

Any person desiring an initial franchise for a cable television system shall file an application with the town. A reasonable nonrefundable application fee established by the town shall accompany the application. The application fee shall not be deemed to be "franchise fees" within the meaning of section 622 of the cable act (47 U.S.C. § 542), and the payments shall not be deemed to be (i) "payments in kind" or any involuntary payments chargeable against the compensation to be paid to the town by grantee pursuant to section 9-8-18 hereof and applicable provisions of a franchise agreement, or (ii) part of the compensation to be paid to the town by grantee pursuant to section 9-8-18 hereof and applicable provisions of a franchise agreement. An application for an initial franchise for a cable television system shall contain, where applicable:

- A. A statement as to the proposed franchise and initial service area.
- B. Resume of prior history of applicant, including the legal, technical and financial expertise of applicant in the cable television field.

- C. List of the partners, general and limited, of the applicant, if a partnership, or the percentage of stock owned or controlled by each shareholder, if a corporation.
- D. List of officers, directors and managing employees of applicant, together with a description of each person's background.
- E. The names and addresses of any parent or subsidiary of applicant or any other business entity owning or controlling applicant in whole or in part, or owned or controlled in whole or in part by applicant.
- F. A current financial statement of applicant verified by a certified public accountant audit or otherwise certified to be true, complete and correct to the reasonable satisfaction of the town.
- G. Proposed construction and service schedule.
- H. Any additional information that the town deems applicable.

9-8-14 Consideration of initial applications

- A. Upon receipt of any application for an initial franchise, the town manager shall prepare a report and make recommendations respecting the application to the town council.
- B. A public hearing shall be set prior to any initial franchise grant, at a time and date approved by the council. Within 30 days after the close of the hearing, the council shall make a decision based upon the evidence received at the hearing as to whether or not the franchise should be granted, and, if granted, subject to what conditions. The council may grant one or more initial franchises, or may decline to grant any franchise.

9-8-15 Franchise renewal

Franchise renewals shall be in accordance with applicable law including, but not necessarily limited to the cable act. The town and grantee, by mutual consent, may enter into renewal negotiations at any time during the term of the franchise.

9-8-16 Consumer protection and service standards

Except as otherwise provided in the franchise agreement, grantee shall maintain a local office or offices to provide the necessary facilities, equipment and personnel to comply with the following consumer protection standards under normal operating conditions:

- A. cable system office hours and telephone availability:
 - 1. Grantee will maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week.
 - a. Trained grantee representatives will be available to respond to customer telephone inquiries during normal business hours.

- b. After normal business hours, the access line may be answered by a service or an automated response system, including an answering machine. Inquiries received after normal business hours must be responded to by a trained grantee representative on the next business day.
 2. Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed 30 seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed 30 seconds. These standards shall be met no less than 90% of the time under normal operating conditions, measured on a quarterly basis.
 3. The grantee will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.
 4. Under normal operating conditions, the customer will receive a busy signal less than 3% of the time.
 5. Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.
- B. Installations, outages and service calls. Under normal operating conditions, each of the following four standards will be met no less than 95% of the time measured on a quarterly basis:
1. Standard installations will be performed within seven business days after an order has been placed. Standard installations are those that are located up to 125 feet from the existing distribution system.
 2. Excluding conditions beyond the control of grantee, grantee will begin working on Service interruptions promptly and in no event later than 24 hours after the interruption becomes known. The grantee must begin actions to correct other service problems the next business day after notification of the service problem.
 3. At the subscriber's request, the "appointment window" alternatives for Installations, service calls, and other Installation activities will be within a two to four hour time block during normal business hours. (The grantee may schedule service calls and other Installation activities outside of normal business hours for the express convenience of the customer.)
 4. Grantee may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.
 5. If grantee's representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment

will be rescheduled, as necessary, at a time that is convenient for the customer.

C. Communications between grantee and cable subscribers:

1. Notifications to subscribers:

- a. The grantee shall provide written information on each of the following areas at the time of Installation of service, at least annually to all subscribers, and at any time upon request:

 - iii. Installation and service maintenance policies;
 - iv. Instructions on how to use the cable service;
 - v. Channel positions for programming carried on the system; and
 - vi. Billing and complaint procedures, including the address and telephone number of the town's cable office.
- b. Customers will be notified of any changes in rates, programming services or channel positions as soon as possible through announcements on the cable system and in writing. Notice must be given to subscribers a minimum of 30 days in advance of the changes if the change is within the control of the grantee. In addition, the grantee shall notify subscribers 30 days in advance of any significant changes in the other information required by the preceding paragraph.

2. Billing:

- a. Bills will be clear, concise and understandable. Bills must be fully itemized, with itemizations including, but not limited to, basic and premium service charges and equipment charges. Bills will also clearly delineate all activity during the billing period, including optional charges, rebates and credits.
- b. In case of a billing dispute, the grantee must respond to a written complaint from a subscriber within 30 days.

3. Refunds: Refund checks will be issued promptly, but no later than either:

- a. The customer's next billing cycle following resolution of the request or 30 days, whichever is earlier, or
- b. The return of the equipment supplied by the grantee if service is terminated.

4. Credits: Credits for service will be issued no later than the customer's next billing cycle following the determination that a credit is warranted.

9-8-17 Rate regulation

- A. The town reserves the right to regulate rates for basic cable service and any other services offered over the cable system, to the extent permitted by federal or state law. The grantee shall be subject to the rate regulation provisions provided for in this chapter, and those of the FCC at 47 C.F.R., Part 76.900, subpart N. The town shall follow the rules relating to cable rate regulation promulgated by the FCC at 47 C.F.R., Part 76.900, subpart N.
- B. Except to the extent otherwise expressly permitted by applicable law, grantee shall provide cable service to each resident within the service area at a uniform rate.

- A. Following the issuance and acceptance of a franchise, the grantee shall pay to the town a franchise fee in the amount set forth in the franchise agreement.
- B. The town, on an annual basis, shall be furnished a statement within 60 days of the close of the calendar year, certified by an officer of the grantee or audited by a certified public accountant, reflecting the total amounts of gross annual revenues and all payments, and computations for the previous calendar year. Upon ten days prior written notice, the town shall have the right to conduct an independent audit of grantee's records, in accordance with generally accepted accounting principles and if the audit indicates a franchise fee underpayment of 10% or more, the grantee shall assume all reasonable costs of the audit.
- C. Except as otherwise provided by law, no acceptance of any payment by the town shall be construed as a release or as an accord and satisfaction of any claim the town may have for further or additional sums payable as a franchise fee under this chapter or any franchise agreement or for the performance of any other obligation of the grantee.
- D. If any franchise fee payment or recomputed amount is not made on or before the dates specified in the franchise agreement, grantee shall pay as additional compensation an interest charge, computed from the due date, at an annual rate equal to the prime lending rate plus 1½% during the period for which payment was due.
- E. Franchise fee payments shall be made in accordance with the schedule indicated in the franchise agreement.

9-8-19 Design and construction requirements

- A. Grantee shall not construct any cable system facilities until grantee has secured, at its own expense, all necessary permits, licenses or

other forms of approval or authorization from the town and other cognizant public agencies.

- B. Grantee shall construct, operate and maintain its transmission and distribution facilities underground in those areas of the town where transmission or distribution facilities of the public utilities providing telephone and electric power service are underground.
- C. In those areas of the town where grantee's cables are located on the above-ground transmission or distribution facilities of the public utility providing telephone or electric power service, and if the facilities of both of those public utilities subsequently are placed underground, then the grantee likewise shall construct, operate and maintain its transmission and distribution facilities underground, at grantee's cost. Certain of grantee's equipment, such as pedestals, amplifiers and power supplies, which normally are placed above ground, may continue to remain in above-ground closures.
- D. In new residential developments in which all the electric power and telephone utilities are underground, the following procedure shall apply with respect to access to and utilization of underground easements:
1. The developer shall be responsible for contacting and surveying all franchised cable operators to ascertain which operators desire (or, pursuant to the terms and provisions of this chapter and any franchise agreement, may be required) to provide cable service to that development. The developer may establish a reasonable deadline to receive cable operator responses. The final development map shall indicate the cable operators that have agreed to serve the development.
 2. If one or two cable operators wish to provide service, they shall be accommodated in the joint utilities trench on a nondiscriminatory shared basis. If fewer than two operators indicate interest, the developer shall provide conduit to accommodate two sets of cable television cables and dedicate to the town any initially unoccupied conduit. The developer shall be entitled to recover from the town the cost of the initially unoccupied conduit if the town subsequently leases or sells occupancy or use rights to any grantee.
 3. The developer shall provide at least ten working days notice of the date that utility trenches will be open to the cable operators that have agreed to serve the development. When the trenches are open, cable operators shall have two working days to begin the Installation of their cables, and five working days after beginning Installation to complete Installation.
 4. The final development map shall not be approved until the developer submits evidence that:
 - a. It has notified each grantee that underground utility trenches are to open as of an estimated date, and that each

Ordinance 2005.22 rewrote paragraph B

grantee will be allowed access to those trenches, including trenches from proposed streets to individual homes or home sites, on specified nondiscriminatory terms and conditions; and

- b. It has received a written notification from each grantee that the grantee intends to install its facilities during the open trench period on the specified terms and conditions, or such other terms and conditions as are mutually agreeable to the developer and grantee, or has received no reply from a grantee within ten days after its notification to the grantee, in which case the grantee will be deemed to have waived its opportunity to install its facilities during the open trench period.
5. Sharing the joint utilities trench shall be subject to compliance with state regulatory agency and utility standards. If compliance is not possible, the developer shall provide a separate trench for the cable television cables, with the entire cost shared among the participating cable operators. With the concurrence of the developer, the affected utilities and the cable operators, alternative Installation procedures, such as the use of deeper trenches, may be utilized, subject to applicable law.
6. Any cable operator wishing to serve an area where the trenches have been closed shall be responsible for its own trenching and associated costs and shall repair all property to the condition which existed prior to the trenching.
- E. Grantee shall remove, replace or modify at its own expense the installation of any of its facilities within any street when required to do so by the town to allow the town to change, maintain, repair, improve or eliminate a street. Nothing in this section shall prevent grantee from seeking and obtaining reimbursement from sources other than the town.
- F. At the request of any person holding a valid building moving permit and upon sufficient notice, grantee shall temporarily raise or lower its wires as necessary to facilitate the move upon not less than 72 hours advance notice. The direct expense of the temporary changes, including standby time, shall be paid by the holder of the moving permit and grantee may require payment in advance.

9-8-20 Technical standards

- A. The grantee shall construct, install, operate and maintain its system in a manner consistent with all applicable laws, ordinances, construction standards, governmental requirements, FCC technical standards, and any standards set forth in its franchise agreement. In addition, the grantee shall provide to the town, upon request, a written report of the results of the grantee's periodic proof of performance tests conducted pursuant to FCC standards and guidelines.

- G. Grantee shall at all times employ ordinary care and shall install and maintain in use commonly accepted methods and devices preventing failures and accidents which are likely to cause damage, injury or nuisance to the public.

9-8-21 Trimming of trees

Grantee shall have the authority to trim trees, in accordance with all applicable utility restrictions, ordinance and easement restrictions, upon and hanging over streets, alleys, sidewalks, and public places of the town so as to prevent the branches of the trees from coming in contact with the wires and cables of grantee. Town representatives shall have authority to supervise and approve all trimming of trees conducted by grantee.

9-8-22 Use of grantee facilities

The town shall have the right to install and maintain, free of charge, upon the poles and within the underground pipes and unused conduits, any wires and fixtures desired by the town to the extent that the installation and maintenance does not interfere with existing operations and future use of grantee.

9-8-23 Hold harmless

- A. Grantee, under any franchise operated pursuant to this chapter, shall agree to indemnify, hold harmless, release and defend the town, its officers, boards, commissions, agents and employees from and against any and all lawsuits, claims, causes of action, actions, liability, demands, damages, disability, losses, expenses, including reasonable attorneys' fees and costs or liabilities of any nature that may be asserted by any person resulting or in any manner arising from the action or inaction of the grantee in constructing, operating, maintaining, repairing or removing the system, in carrying on grantee's business or operations in the town or in exercising or failing to exercise any right or privilege granted by the franchise. This indemnity shall apply, without limitation, to any action or cause of action for invasion of privacy, defamation, antitrust, errors and omissions, theft, fire, violation or infringement of any copyright, trademark, trade names, service mark or patent, or any other right of any person, firm or corporation, whether or not any act or omission complained of is authorized, allowed or prohibited by this chapter or any franchise agreement, but shall not include any claim or action arising out of the actions or omissions of town officers, employees or agents or related to any town programming or other PEG access facilities programming for which the grantee is not legally responsible.
- B. The town shall promptly notify grantee of any claims subject to indemnification by grantee and shall cooperate with all reasonable requests by grantee for information, documents, testimony or other assistance appropriate to a resolution of the claims. Grantee shall have full responsibility for and control of any action or undertaking directed at the resolution of the claims.

9-8-24 Insurance

9-8-25 Records required and the town's right to inspect

- A. Grantee shall at all times maintain:
1. A full and complete set of plans, records and "as-built" maps showing the location of the cable television system installed or in use in the town, exclusive of subscriber service drops and equipment provided in subscribers' homes.
 2. If requested by the town, a summary of service calls, identifying the number, general nature and disposition of the calls, on a monthly basis. A summary of service calls shall be submitted to the town within 30 days following its request in a form reasonably acceptable to the town.
- B. Upon 48 hours written notice, and during normal business hours, grantee shall permit examination by any duly authorized repre-

sentative of the town, of all franchise property and facilities, together with any appurtenant property and facilities of grantee situated within the town, and all records relating to the franchise, provided they are necessary to enable the town to carry out its regulatory responsibilities under local, state and federal law, this chapter and the franchise agreement. Records include all books, records, maps, plans, financial statements, service complaint logs, performance test results, records of request for service, and other like materials of grantee. Grantee shall have the right to be present at the examination.

- C. If any of the records described in the previous subsection are proprietary in nature or must be kept confidential by state, federal or local law, upon proper request by grantee, the information obtained during the inspection shall be treated as confidential. To the extent that any state or federal law requires the town to disclose the records, the town shall be entitled to disclose those records.
- D. Copies of all petitions, applications, communications and reports submitted by grantee, or on behalf of or relating to grantee, to the FCC, securities and exchange commission, or any other federal or state regulatory commission or agency having jurisdiction with respect to any matters affecting the cable system authorized pursuant to this chapter and any franchise shall be made available to the town upon request. Copies of responses from the regulatory agencies to grantee shall likewise be furnished to the town upon request.

9-8-26 Annual reports

- A. Grantee shall submit a written end of the year report to the town with respect to the preceding calendar year containing the following information
 - 1. A summary of the previous year's (or in the case of the initial reporting year, the initial year's) activities in development of the cable system, including but not limited to, services begun or discontinued during the reporting year.
 - 2. A list of grantee's officers, members of its board of directors, and other principals of grantee.
 - 3. A list of stockholders or other equity investors holding 5% or more of the voting interest in grantee.

 - 5. The town, including its agents and representatives, shall have the authority, during normal business hours, to arrange for and conduct an inspection of annual reports required pursuant to this chapter or a franchise agreement. The town shall give the grantee 72 hours written notice of the inspection request.

6. If the requested information is proprietary in nature or must be kept confidential by state, federal or local law, upon proper request by grantee, the information obtained during the inspection shall be treated as confidential. To the extent that any state or federal law requires the town to disclose the records, the town shall be entitled to disclose those records.
- B. All reports and records required under this chapter shall be furnished at the sole expense of grantee, except as otherwise provided in this chapter or the franchise agreement.

9-8-27 Franchise violation

If grantee fails to perform in a timely manner any material obligation required by this chapter or a franchise granted under this chapter, following notice from the town and an opportunity to cure the nonperformance, the town may act to remedy the violation in accordance with the following procedures:

- A. The town shall notify grantee of any alleged material violation in writing by personal delivery or registered or certified mail, and demand correction within a reasonable time, which shall not be less than ten business days in the case of the failure of the grantee to pay any sum or other amount due the town under this chapter or the grantee's franchise and 30 days in all other cases.
- B. If grantee fails either to correct the violation within the time prescribed or to commence correction of the violation within the time prescribed and to diligently pursue correction of the violation, the town shall then give written notice of not less than 20 business days of a public hearing to be held before the council. The notice shall specify the violations alleged to have occurred.
- C. At the public hearing, the council shall hear and consider relevant evidence and thereafter render findings and its decision. If the council finds that a material violation exists and that grantee has not corrected it in a satisfactory manner or has not diligently commenced correction of it after notice from the town and is not diligently proceeding to fully remedy the violation, the council may revoke the franchise or impose another penalty permitted by the franchise agreement.
- D. The town shall give written notice to the grantee of its intent to revoke the franchise on the basis of a pattern of noncompliance by the grantee, including one or more instances of substantial noncompliance with a material provision of the franchise. The notice shall set forth with specificity the exact nature of the noncompliance. The grantee shall have 60 days from the receipt of the notice to object in writing and to state its reasons for the objection. If the town has not received a satisfactory response from the grantee, it may then seek termination of the franchise at a public hearing. The town shall cause to be served upon the grantee, at least ten days prior to the public hearing, a written notice specifying the time and

place of the hearing and stating its intent to request termination of the franchise.

- E. At the hearing, the town shall give the grantee an opportunity to state its position on the matter, present evidence and question witnesses, after which it shall determine whether or not the franchise shall be revoked. The public hearing shall be on the record and a written transcript shall be made available to the grantee within ten business days. The decision of the town shall be in writing and shall be delivered to the grantee. The grantee may appeal the determination to an appropriate court, which shall have the power to review the decision of the town and to modify or reverse the decision as justice may require. An appeal to the appropriate court must be taken within 60 days of the issuance of the determination of the town.

9-8-28 Force majeure: grantee's inability to perform

If grantee's performance of any of the terms, conditions or obligations required by this chapter or a franchise grant under this chapter is prevented by a cause or event not within grantee's control, the inability to perform shall be deemed excused and no penalties or sanctions shall be imposed as a result of it. For the purpose of this section, causes or events not within the control of grantee shall include without limitation acts of God, strikes, sabotage, riots or civil disturbances, restraints imposed by order of a governmental agency or court, failure or loss of utilities, explosion, acts of public enemies, and natural disasters such as floods, earthquakes, landslides, and fires.

9-8-29 Abandonment or removal of franchise property

- A. If the use of any property of grantee within the franchise area or a portion of it is discontinued for a continuous period of 12 months, grantee shall be deemed to have abandoned that franchise property.
- B. The town, upon whatever terms the town may impose, may give grantee permission to abandon, without removing, any system facility or equipment laid, directly constructed, operated or maintained under the franchise. Unless permission is granted or unless otherwise provided in this chapter, the grantee shall remove all abandoned above-ground facilities and equipment upon receipt of written notice from the town and shall restore any affected street to its former state at the time the facilities and equipment were installed, so as not to impair its usefulness. In removing its plant, structures and equipment, grantee shall refill, at its own expense, any excavation that shall be made by it and shall leave all public ways and places in as good condition as that prevailing prior to the removal without materially interfering with any electrical or telephone cable or other utility wires, poles or attachments. The town shall have the right to inspect and approve the condition of the public ways, public places, cables, wires, attachments and poles prior to and after removal. The liability, indemnity and insurance

provisions of this chapter and any security fund provided in the franchise shall continue in full force and effect during the period of removal and until full compliance by grantee with the terms and conditions of this section.

- C. Upon abandonment of any franchise property in place, the grantee, if required by the town, shall submit to the town an instrument, satisfactory in form to the town, transferring to the town the ownership of the franchise property abandoned.
- D. At the expiration of the term for which the franchise is granted, or upon its revocation or earlier expiration, as provided for in this chapter, in any such case without renewal, extension or transfer, the town shall have the right to require grantee to remove, at its own expense, all above-ground portions of the cable television system from all streets and public ways within the town within a reasonable period of time, which shall not be less than 180 days.
- E. Notwithstanding anything to the contrary set forth in this chapter, the grantee may abandon any underground franchise property in place so long as it does not materially interfere with the use of the street or public rights-of-way in which the property is located or with the use of it by any public utility or other cable grantee.

9-8-30 Extended operation and continuity of services

Upon either expiration or revocation of the franchise, the town shall have discretion to permit and/or require grantee to continue to operate the cable television system for an extended period of time not to exceed six months from the date of the expiration or revocation. Grantee shall continue to operate the system under the terms and conditions of this chapter and the franchise and to provide the regular subscriber service and any and all of the services that may be provided at that time.

9-8-31 Receivership and foreclosure

- A. A franchise granted under this chapter shall, at the option of the town, cease and terminate 120 days after appointment of a receiver or receivers, or trustee or trustees, to take over and conduct the business of grantee, whether in a receivership, reorganization, bankruptcy or other action or proceeding, unless the receivership or trusteeship shall have been vacated prior to the expiration of that 120 days, or unless:
 - 1. The receivers or trustees shall have, within 120 days after their election or appointment, fully complied with all the terms and provisions of this chapter and the franchise granted pursuant hereto, and the receivership or trustees within that 120 days shall have remedied all the faults under the franchise or provided a plan for the remedy of the faults which is satisfactory to the town; and

2. The receivers or trustees shall, within those 120 days, execute an agreement duly approved by the court having jurisdiction in the premises, in which the receivers or trustees assume and agree to be bound by each and every term, provision and limitation of the franchise granted.
- B. In the case of a foreclosure or other judicial sale of the franchise property, or any material part of it, the town may serve notice of termination upon grantee and the successful bidder at the sale, in which event the franchise granted and all rights and privileges of the grantee under this chapter shall cease and terminate 30 days after service of the notice, unless:
1. The town shall have approved the transfer of the franchise, as and in the manner that this chapter provides; and
 2. The successful bidder shall have covenanted and agreed with the town to assume and be bound by all terms and conditions of the franchise.

9-8-32 Rights reserved to the town

- A. In addition to any rights specifically reserved to the town by this chapter, the town reserves to itself every right and power which is required to be reserved by a provision of any ordinance or under the franchise.
- B. The town shall have the right to waive any provision of the franchise, except those required by federal or state regulation, if the town determines (1) that it is in the public interest to do so, and (2) that the enforcement of the provision will impose an undue hardship on the grantee or the subscribers. To be effective, the waiver shall be evidenced by a statement in writing signed by a duly authorized representative of the town. Waiver of any provision in one instance shall not be deemed a waiver of that provision subsequent to that instance or be deemed a waiver of any other provision of the franchise unless the statement so recites.

9-8-33 Rights of individuals

- A. Grantee shall not deny service, deny access, or otherwise discriminate against subscribers, channel users, or general citizens on the basis of race, color, religion, national origin, age, disability, gender or sexual preference. Nor shall grantee fail to extend service to any part of the town within its licensed service area on the basis of the income of the residents. Grantee shall comply at all times with all other applicable federal, state and local laws and regulations, relating to nondiscrimination.
- B. Grantee shall adhere to the applicable equal employment opportunity requirements of federal, state and local regulations.
- C. Neither grantee, nor any person, agency, or entity shall, without the subscriber's consent, tap or arrange for the tapping, of any cable, line, signal input device, or subscriber outlet or receiver for

any purpose except routine maintenance of the system, detection of unauthorized service, polling with audience participating, or audience viewing surveys to support advertising research regarding viewers where individual viewing behavior cannot be identified.

- D. In the conduct of providing its services or in pursuit of any collateral commercial enterprise resulting from it, grantee shall take reasonable steps to prevent the invasion of a subscriber's or general citizen's right of privacy or other personal rights through the use of the system as those rights are delineated or defined by applicable law. Grantee shall not, without lawful court order or other applicable valid legal authority, utilize the system's interactive two-way equipment or capability for unauthorized personal surveillance of any subscriber or general citizen.
- E. No cable line, wire amplifier, converter, or other piece of equipment owned by grantee shall be installed by grantee in the subscriber's premises, other than in appropriate easements, without first securing any required consent. If a subscriber requests service, permission to install upon subscriber's property shall be presumed. Where a property owner or his predecessor has granted an easement including a public utility easement or a servitude to another and the servitude by its terms contemplates a use such as grantee's intended use, grantee shall not be required to obtain the written permission of the owner for the Installation of cable television equipment.

9-8-34 Conflicts

If there is a conflict between any provision of this chapter and a franchise agreement entered pursuant to it, the provisions of this chapter shall control, except as may be specifically otherwise provided in the franchise agreement.

9-8-35 Severability

If any provision of this chapter is held by any court or by any federal or state agency of competent jurisdiction to be invalid as conflicting with any federal or state law, rule or regulation now or hereafter in effect, or is held by the court or agency to be modified in any way to conform to the requirements of any law, rule or regulation, the provision shall be considered a separate, distinct, and independent part of this chapter, and the holding shall not affect the validity and enforceability of all other provisions hereof. If the law, rule or regulation is subsequently repealed, rescinded, amended or otherwise changed, so that the provision hereof which had been held invalid or modified is no longer in conflict with the law, rule or regulation, that provision shall return to full force and effect and shall thereafter be binding on the town and grantee, provided that the town shall give grantee 30 days written notice of the change before requiring compliance with the provision or such longer period of time as may be reasonably required for grantee to comply with the provision.

CHAPTER 9-9. PENALTY

- A. Except as otherwise provided in this title, any violation of this title is a civil infraction, and may be enforced in any manner provided by town ordinances and state laws.
- B. Each day any violation continues shall constitute a separate offense.

CHAPTER 9-10. SURFACE MINING AND LAND RECLAMATION

9-10-1 Purpose and intent

It is the purpose and intent of this chapter to establish an effective and comprehensive surface mining and reclamation policy including regulation of surface mining operations so as to assure that:

- A. Adverse environmental effects are prevented or minimized and that mined lands are reclaimed in a timely manner, to a usable condition which is readily adapted for alternative land use.
- B. The production and conservation of minerals are encouraged, while giving consideration to values relating to recreation, watershed, wildlife, range and forage, and aesthetic enjoyment.
- C. Residual hazards to public health and safety are eliminated.

9-10-2 Definitions

For the purposes of this chapter the following definitions shall apply:

- A. "Financial assurance amount" means that amount of money necessary to conduct a complete reclamation on the mined lands in accordance with the approved reclamation plan, plus a reasonable estimate of the administrative costs and expenses which would be incurred by the town.
- B. "Financial assurance" means a bond, instrument, fund or other form of financial assurance acceptable to the town.
- C. "Government mine" means any surface mine owned and operated by federal, state or local governmental entity.

- E. "Interim management plan" is the plan which the operator of an idle mine shall submit and gain approval for, to assure that the site shall be maintained in compliance with the approved reclamation plan, use permit, and applicable conditions, until the mine operation is resumed or the mine is fully reclaimed in accordance with the approved reclamation plan.

Chapter 9-9 was deleted and replaced by Ordinance 2014.014. For prior history, see Ordinance 2000.06.

Ordinance 2002.08 added chapter 9-10

- F. "Mined lands" includes the surface, subsurface, and groundwater of an area in which surface mining operations will be, are being, or have been conducted, including private ways and roads appurtenant to any such area, land excavations, workings, mining waste, and areas in which structures, facilities, equipment, machines, tools, or other materials or property which result from, or are used in, surface mining operations are located.

1. Excavation or grading for farming, onsite construction, or restoration of land following a flood or natural disaster or other activities separately regulated by town ordinances.
 2. Reclamation of lands mined prior to February 5, 2002, unless subject to approved development agreements and zoning conditions enacted or agreed to after February 5, 2002.
 3. Surface mining operations that are required by federal law to protect a mining claim, if those operations are conducted solely for that purpose.
 4. Prospecting for, or the extraction of, minerals for commercial purpose and the removal of overburden in total amounts of less than one thousand cubic yards in any one location of one acre or less.

9-10-4 Reclamation plan requirements

- A. Any person who proposes to engage in a surface mining activity shall, prior to the commencement of the operations, obtain approval of a permit to mine, submit a reclamation plan, and have financial assurances in place sufficient to implement the approved plan. Approval to mine and approval of the reclamation plan, in accordance with the provisions set forth in this chapter, shall be obtained from the Marana development services director.
- B. The reclamation plan shall be applicable to a specific piece of property or properties, shall be based upon the character of the surrounding area and such characteristics of the property as type of

overburden, soil stability, topography, geology, climate, stream characteristics, and principal mineral commodities, and shall establish site-specific criteria for evaluating compliance with the approved reclamation plan, including topography, revegetation, sediment and erosion control, and current and proposed zoning. The reclamation plan shall include a certification by the operator that all public agencies having possible jurisdiction over the surface mining activity, including but not limited to county, state and federal agencies, have reviewed and approved the plan, and that all necessary permits have been obtained.

- C. Reclamation plans issued pursuant to this chapter shall be recorded with the county recorder and shall run with the land affected thereby and shall be binding on all successors, heirs, and assigns of the permittee.
- D. Applicants having a surface mining operation that involves separate, noncontiguous parcels of land may file one reclamation plan for the entire operation covering each parcel of land, provided that the type of operation is the same on each parcel of land and each parcel of land is identified in the reclamation plan. A separate phasing schedule shall be required for each parcel.

9-10-5 Application

All applications for a reclamation plan for any mining operation shall be made on forms provided by town development services department. The application shall be filed in accordance with this chapter and procedures established by the town.

9-10-6 Fees

- A. The fees for a reclamation plan, amendment to reclamation plan, and interim management plan shall be as the same as those set forth in the town fee schedule for development plans, and shall be paid to the development services department at the time of filing of the reclamation plan amendment to reclamation plan, or interim management plan.
- B. A business license fee shall be paid the town for inspections and monitoring of a surface mine as set forth in section 9-1-3 of the Marana town code.

9-10-7 Financial assurances

- A. To ensure that reclamation will proceed in accordance with the approved reclamation plan, the town shall require as a condition of approval financial assurances.
- B. Financial assurances may take the form of surety bonds, irrevocable letters of credit, trust funds or other mechanisms acceptable to the town.

- C. Public agencies may satisfy financial assurance requirements by using “pledges of revenue” or “budget set aside” as acceptable financial assurances mechanisms.
- D. The financial assurances shall remain in effect for the duration of the surface mining operation and any additional period until reclamation is completed.
- E. The amount of the financial assurances shall be calculated by the applicant based on the projected expense to complete the reclamation for the intended future use as approved by the town engineer. Approval of the amount of financial assurances will be subject to the review and approval of the town engineer.
- F. The amount of financial assurances required of a surface mining operation for any one year shall be adjusted annually to account for new lands disturbed by surface mining operations, inflation, and reclamation of lands accomplished in accordance with the approved reclamation plan.
- G. The financial assurances shall be made payable to the town. However, if a surface mining operation has received approval of its financial assurances from a public agency other than the town, the town shall review those financial assurances to ascertain whether they are adequate for purposes of this section, or shall credit them toward fulfillment of the financial assurances required by this section, if they are made payable to the town.
- H. If a sand and gravel surface mining operation is sold or ownership is transferred to another person, the existing financial assurances shall remain in force and shall not be released by the town until new financial assurances are secured from the new owner and have been approved by the town.
- I. The release of financial assurances shall be with the concurrence of all agencies named on the financial assurance. The criteria for release of financial assurances, or part of the financial assurances, shall be made part of the reclamation plan. In no case shall the financial assurance be released until reclamation has been completed.
- J. The amount of financial assurances shall be reviewed and adjusted, if required, pursuant to section 9-10-10.

Ordinance 2005.22 inserted “town engineer” for “development services director” in paragraph E

9-10-8 Public records

Reclamation plans, reports, applications and other documents submitted pursuant to this chapter are public records unless it can be demonstrated to the satisfaction of the town that the release of the information, or any part of it, would reveal production, reserves, or rate of depletion entitled to protection as proprietary information and is not required by law. The town shall identify the proprietary information as a separate part of each application. Proprietary Information shall be made available to persons other than the mine operator or mine owner

only when authorized by law or by the mine operator and by the mine owner.

9-10-9 Procedures

Once all required and approved documents and other related materials and requirements are submitted and approved as required under this chapter, including the submittal of the financial assurances in the amount approved by the town engineer, the town engineer shall expeditiously issue approval to commence operation of the approved surface mining operation and reclamation plan.

Ordinance 2005.22 inserted "town engineer" for "development services director" in section 9-10-9

9-10-10 Periodic review and inspections

- A. The town shall monitor and inspect each surface mining operation on a regular basis.
- B. The required financial assurances shall be reviewed annually by the town. Financial assurances shall be adjusted to account for new lands disturbed by surface mining operations, inflation, reclamation of lands accomplished in accordance with the approved reclamation plan, or other factors related to the cost of reclamation which have changed since the previous review.
- C. At the time of the annual inspection, the mine operator shall make available to the town an updated reclamation cost estimate prepared by the operator.
- D. The person in charge of the surface mining operation shall make the surface mining operation open and available for monitoring and inspection during regular town and operator business hours or at such other times as may be mutually agreed upon by him or her and the development services department. The provisions of this subsection shall be deemed to be a condition of the reclamation plan.
- E. The development services department shall make a report of the results of the inspection. This report shall be filed with the town engineer.

Ordinance 2005.22 inserted "town engineer" for "development services director" in paragraph E

9-10-11 Idle mine - interim management plans

Within 90 days of a surface mining operation becoming idle, the operator shall submit an interim management plan. The interim management plan shall be developed in accordance with this chapter. Interim management plans shall be sent to the town engineer for review in the same manner as amendments to reclamation plans. Financial assurances as required shall remain in effect during the period that the surface mining operation is idle.

Ordinance 2005.22 inserted "town engineer" for "development services director" in section 9-10-11

9-10-12 Amendments to plan

Amendments to an approved reclamation plan may be submitted detailing proposed changes from the original plan. Substantial deviations from the original plan shall not be undertaken until the amendment

has been filed and approved, in the same manner as established in this chapter for original application. The foregoing notwithstanding, in emergency situations where irreversible physical damage to the environment may occur, an operator may take whatever action is necessary to prevent irreversible physical damage and shall promptly report the taking of the action to the development services department. Applications for an amendment are subject to the fee in accordance with section 9-10-6.

9-10-13 Enforcement

- A. Where it appears to the development services department that a surface mining operation is in violation of any condition of an approved reclamation plan or applicable statute, regulation, or ordinance, the development services department shall serve formal notice to the operator stating the nature of the violation and the specified time frame to correct the violation before an order is issued.
- B. The time within which the permittee must commence correction of the violation shall be sooner than 60 days from the notice of violation.
- C. An order shall be issued if the operator fails to comply with the notice within the specified time limit. Not sooner than 30 days after the date of the order, a hearing shall be held by the town engineer or his or her designee, for which at least ten days' written notice has been given to the operator. The order shall not take effect until the operator has been provided the hearing. The date of issuance of the order is the date of receipt by the operator.
- D. Failure to comply with the order shall be subject to an order setting administrative penalties. Penalties shall be assessed from date of original non-compliance.
- E. In determining the amount of administrative penalty, the town shall take into consideration the nature, circumstances, extent, and gravity of the violation or violations, any prior history of violations, the degree of culpability, economic savings, if any, resulting from the violation, and any other matters justice may require.
- F. Orders setting administrative penalties shall become effective upon issuance and payment shall be made to the development services department, unless the operator files an appeal with the town manager within 30 days. A parent, guardian or person having responsibility of a minor commits an offense if the parent, guardian or person having responsibility for the minor knowingly permits, or by insufficient control allows, the minor to remain in any public place or on the premises of any establishment within the town, away from the property where the minor resides, during curfew hours. It shall not constitute a defense that the parent, guardian or other person having responsibility for the minor did not have actual knowledge that the minor was violating the provisions of this chapter if the parent, guardian or other person having responsibility for the minor, in the exercise of reasonable care and diligence, should have known of the violation.
- C. A parent, guardian or other person having the care, custody or supervision of the minor commits an offense by refusing to take custody of the minor after the demand is made upon the parent, guardian or other person having the care, custody or supervision of the minor, by a law officer who arrests the minor for violations of this chapter.

It is hereby declared to be a public nuisance, and it is unlawful for any person, to play or permit to be played any music or musical instruments whether played by individuals, orchestra, radio, phonograph, music box or other mechanical device or means in such a loud or unusual manner as to be offensive to the senses, or so as to disturb the slumber, peace and quiet, or otherwise interfere with or annoy the comfortable enjoyment of life or property of any person

and is no less a nuisance because the extent of the annoyance inflicted is unequal.

- B. It is unlawful to play, operate or use any device known as a sound truck, loud speaker or sound amplifier, radio or any instrument of any kind or character which emits loud and raucous noises and is attached to and upon any vehicle unless the person in charge of the vehicle shall have first applied to and received permission from the chief of police to operate the vehicle so equipped.

11-5-2 False alarms

- A. It shall be unlawful to allow or cause a false alarm within the town. A violation of this section shall be punishable as provided in section 11-9-2 below.

- B. In this chapter, unless the context otherwise requires:

1. "Alarm" means any mechanical or electrical device or assembly of equipment designed or arranged to signal the occurrence of an illegal entry or other activity requiring urgent attention and to which the police are expected to respond, or designed or arranged to signal the occurrence of a fire or excessive smoke requiring urgent attention and to which a fire department is expected to respond.

11-5-3 Noise standards in the resort and recreation zone

Ordinance 2002.12 adopted section 11-5-3

- A. Applicability; policy. The town has come to understand that certain allowable activities within the resort and recreation zone may be disruptive to the public health, safety and general welfare, the satisfaction, and the feeling of well being to the surrounding residents. To control unnecessary, excessive and annoying noise being generated from properties with the resort and recreation (RR) zoning designation, it is the policy of the town to maintain the standards identified in this section to protect the public health, safety and general welfare of the surrounding residentially zoned properties. All uses established or placed into operation after the effective date of this section shall comply at all times hereafter with the following limitations or performance standards.
- B. Definitions. As used in this section, the following terms shall be defined as follows:
1. A weighted sound level. The sound pressure level in decibels as measured on a sound level meter using the A weighted filter network. The A weighted filter network is designed to simulate the response of the human ear. The A weighted sound level is expressed by the symbol dBA.
 2. Ambient noise. The composite of noise from all existing sources near and far. The ambient noise level constitutes the normal or existing level of environmental noise at a given location, excluding any alleged offensive noise.
 3. Decibel (dB). A unit for measuring the amplitude of a sound, equal to 20 times the logarithm to the base 10 of the ratio of the pressure of the sound measured to the reference pressure, which is 20 micropascals.
 4. Impulsive noise. A noise of short duration, usually less than one second, and of high intensity, with an abrupt onset and rapid decay.
 5. Noise study. An acoustical analysis performed by a qualified noise engineer which determines the potential noise impacts of a roadway, land use or operation of equipment. The noise study will generate noise contours and recommend mitigation for noise impacts which exceed the city's noise standards.
 6. Sound level meter. A sound level meter shall mean an instrument meeting at a minimum the American National Standards Institute's Types 1 or 2 Standards, or an instrument and the associated recording and analyzing equipment which will provide equivalent data.
- C. Amplified noise standards. This section identifies stationary types of noise sources. The type of noise standard contained in this section is for amplified noise, which may be intrusive to a neighboring residential property. The noise standards shown in table 1 are for

regulating the impact of stationary noise sources to a neighboring property.

- D. Exterior noise. It shall be unlawful for any person, entity or operation at any location within the RR zone of the town to create any amplified noise, or to allow the creation of any amplified noise on property owned, leased, occupied or otherwise controlled by the person, which causes the noise level when measured at the property line to exceed the noise standards found in table 1, and these amplified noise standards are hereby established and declared to be reasonable and acceptable during the times stated in table 1.

TABLE 1 STATIONARY NOISE SOURCE STANDARDS
Maximum noise levels measured at property line
7:00 a.m. to 10:30 p.m. – Not to exceed 55dBA
10:30 p.m. to 7:00 a.m. – Not to exceed 50dBA

- E. Exemptions. The following activities shall be exempt from these noise standards:

1. Special events pursuant to an approved special event permit. Noise impacts shall be evaluated and conditioned as part of the special event permit process as set forth in [chapter 10-6](#).
2. Filming pursuant to a film permit. Noise impacts shall be evaluated and conditioned as part of the film permit.
3. Activities conducted on public parks, public playgrounds and public or private school grounds including school athletic and entertainment events that are conducted under the sanction of the school or under a license or permit duly issued pursuant to any provision of town code.
4. Noise sources associated with the maintenance of real property, provided the activities take place between the hours of 7 a.m. to 8 p.m. on any day except Sunday or between the hours of 9 a.m. to 8 p.m. on Sunday.
5. Any activity to the extent regulation of it has been preempted by state or federal law.

- F. Noise level measurements. All noise shall be measured in accordance with the following standards. Measurements shall be made with a Type 1 or Type 2 calibrated sound level meter utilizing the A weighting scale and the slow meter response as specified by the American National Standards Institute (A.N.S.I.). Noise levels shall be measured in decibels and A weighted. Meters shall be maintained in calibration and in good working order. The measurement location is at the property line between the RR Zone and the residentially zoned property.

- G. Measurement procedure. The sound level meter shall be operated in accordance with the instrument manufacturer's instructions and as follows:

Ordinance 2014.009 revised subparagraph E.1 by changing "special use permit" to "special event permit" in two places, and by adding the reference to chapter 10-6

1. Microphone orientation. The microphone shall be pointed towards the allegedly offensive noise source, unless the manufacturer's instructions specifically indicate otherwise.
 2. Meter setting. The meter shall be set for the A weighted network and "slow" response mode.
 3. Calibration. An internal or external calibration check shall be made before and after each use.
 4. Sound levels shall be measured at the approximate location of the property line, at a height of at least three feet above the immediate surrounding surface.
 5. Windscreens shall be used whenever appropriate.
- H. To implement and enforce this section effectively, the chief of police shall, within a reasonable time after the effective date of this section, develop and promulgate standards and procedures for testing and validating sound level meters used in enforcement of this section.
- I. A law enforcement agent shall command any person violating this section to abate his or her violation. It is unlawful for any person to fail to comply with an order of a law enforcement agent regarding a noise violation. Each violation of the order of a law enforcement agent under this subsection shall constitute a separate offense of this section.
- J. Noise studies required.
1. Pre-development noise studies. A pre development noise study is performed prior to development and is designed to project future noise levels and recommend mitigation measures to be implemented in project development. A registered noise engineer as approved by the town shall prepare all noise studies. Noise studies may be required when a noise generating use, such as an amphitheater, arena, etc., is proposed in the RR zoning district. The need for a noise study will be determined at the time of development review. Pre-development noise studies shall project future noise levels based on proposed uses, traffic volumes and other relevant future conditions. Existing and projected noise shall be evaluated pursuant to the noise standards within this section. Mitigation measures shall be proposed to bring noise levels into compliance with these standards. Mitigation measures may consist of walls, berms, setbacks, landscaping, building materials, construction methods and any other means whereby noise can be reduced to the levels within this section.
- K. Enforcement.
1. It shall be unlawful for any person in the RR zoning district, within the town, to create any exterior noise, or to allow the creation of any noise on property owned, leased, occupied or otherwise controlled by the person, which causes the noise lev-

el when measured according to this section, to exceed the maximum allowable noise levels in Table 1 of this section.

2. No person shall interfere with, oppose or resist any authorized person charged with the enforcement of this section while the authorized person is engaged in the performance of his or her duty.
 3. Any person violating any provision of this section shall be deemed responsible of a civil infraction. A law enforcement agent shall command any person violating this section to abate his or her violation. It is unlawful for any person to fail to comply with an order of a law enforcement agent regarding a noise violation. Each violation of the order of a law enforcement agent under this subsection shall constitute a separate offense of this section.
 4. The operation or maintenance of any device, instrument, or machinery in violation of any noise standard identified in this section is hereby declared to be a public nuisance and may be abated pursuant to the nuisance abatement procedure in the town code.
 5. Pursuant to this section, each person shall be deemed responsible of a separate offense for each and every day during any portion of which any violation of any provision of this section is committed, continued, or permitted by the person and shall be punished accordingly.
 6. Even though compliance with performance standards or procedures in obtaining any permit is not required for a particular use, initial and continued compliance with performance standards is required of every use and the provisions for enforcement of continued compliance with performance standards shall be invoked by the police and planning departments against any use if there are reasonable grounds to believe that performance standards are being violated by that use.
 7. The designee of the police and planning departments shall investigate any purported violation of noise standards and, if there is reasonable ground for same, shall commence proceedings to abate the violation. The town, to assist in the abatement proceedings, may employ qualified expert consultants. Action by the town to abate the violation may include, but shall not be limited to, commencing proceedings for revocation of permits or commencing enforcement proceedings pursuant to this code or other remedies available by law or equity.
- L. Jurisdiction. The town magistrate shall have authority to adjudicate violations of this section. Violations shall be charged via the short form Arizona Traffic Ticket and Complaint or via the long form summons and complaint submitted by the town attorney. Pursuant to A.R.S. § 9-500.21(A)(3), the town magistrate, in adjudi-

cating violations of this section, shall use the same procedures used for adjudicating civil traffic offenses.

11-5-4 Construction noise

Ordinance 2002.14 adopted section 11-5-4, which was renumbered to conform to Ordinance 2002.12

- A. It shall be unlawful to allow or cause site construction activities that result in disturbance to persons residing within 500 feet of the site between the hours of 7:00 p.m. and 6:00 a.m. on weekdays and between 7:00 p.m. and 7:00 a.m. on weekends.

The town engineer shall consider whether construction noise in the vicinity of the proposed work site would be less objectionable at night than during the day due to population levels or activities, interference with traffic, and if the noise would not cause significant disturbance in residential areas. Emergency work or repairs may be authorized by the town engineer or his representative regardless of the time of day. The town engineer may use any factor or reasoning to allow work during night time hours if there exists a community benefit.
- E. Service trucks may work on equipment stored on site up to 9:00 p.m. Maintenance during other hours will be allowed if no objectionable noise is generated.
- F. Sand and gravel operations (mining), and agricultural operations are exempt from this ordinance.

 - 1. Site construction is the work relating to site improvements such as installation of utilities, on site curbs, parking lot surfaces, on site sidewalks, and all structures such as buildings, walls, signs and light poles.

Ordinance 2005.22 amended paragraph H by adding "For purposes of this section" to the introduction and deleting it from the definition of "Site construction"

2. Construction noise shall be considered any construction activity that generates a level of noise that disturbs the peace or quiet of any residence or that causes discomfort or annoyance to any reasonable person of normal sensitivity residing within 500 feet of the construction site.

3. A notification as stated in section C shall be considered door tags, letters or any written means of notification at least 24 hours prior to early work start.

I. The penalty for violation of this section will be as provided in [chapter 11-9](#) Penalties. Violation of this provision will be a class 1 misdemeanor and will be issued by the Marana police department upon complaint and investigation finding probable cause to issue a ticket.

The town attorney made a scrivener's error correction to the chapter 11-9 cross-reference in paragraph I on January 5, 2010, pursuant to the authority in section 1-4-5

CHAPTER 11-10. UNRULY RESIDENTIAL ACTIVITIES**11-10-1 Unruly residential activities unlawful**

An unruly residential activity is an activity on property used for residential purposes which causes a disturbance of the quiet enjoyment of private or public property by any person or persons, and shall be unlawful. Disturbances include, but are not limited to, excessive noise or traffic, obstruction of public streets by crowds or vehicles, drinking in public, the service of alcohol to minors or consumption of alcohol by minors, fighting, disturbing the peace, and littering. An unruly residential activity may be abated by reasonable means including, but not limited to, citation or arrest of violators under applicable ordinances or state statutes.

11-10-2 Notice of unruly residential activity - posting

- A. The premises where the unruly residential activity occurs shall be posted with a notice stating that an unruly residential activity has occurred at the premises. The notice shall state the date of the unruly residential activity, and that any subsequent unruly activity on the same premises within a 120-day period shall result in liability for the penalties provided in this chapter. Parties liable include any persons in attendance causing the unruly activity, or any owner, occupant or tenant of the premises where the unruly activity occurred, or any sponsor of the event constituting the unruly activity. For purposes of this chapter, the premises means the dwelling unit or units where the unruly residential activity occurs.
- B. Premises shall be posted with a notice as provided in this section each time an unruly residential activity occurs. If premises are already posted at the time of a subsequent posting, the 120-day period from the date of the existing posting shall be extended to 120 days from the date of the subsequent posting. Once premises are initially posted as a result of an unruly residential activity and the unruly activity has ceased, a resumption of unruly activity on the premises resulting in another police response shall constitute a new and separate unruly residential activity for purposes of this chapter.

- C. The owner, occupant, or tenant of the posted premises shall be responsible for ensuring that the notice is not removed, defaced, or concealed. The removal, defacement, or concealment of a posted notice shall be a civil infraction carrying a penalty of a minimum, mandatory \$100 fine, in addition to any other penalties which may be imposed under this chapter. The owner, occupant or tenant of the premises or sponsor of the unruly residential activity, if present, shall be consulted about the location where the notice is posted to achieve both the security of the notice and its prominent display.
- D. An owner, occupant, or tenant of the posted premises may contest the posting of the notice by filing a written application for a hearing with the Marana municipal court requesting that the court determine whether justification existed for posting of the notice under the provisions of this chapter. The application shall be filed within ten days after the posting of the notice or, if the notice is given by mail, within ten days after mailing of the notice, and not thereafter. The court shall set a time and date for a hearing to be held no later than 15 days after receipt of the written application for a hearing and shall notify both the applicant and the town's prosecutor of the hearing date. At the hearing, the town shall prove by a preponderance of evidence that the posting of the notice was justified pursuant to the provisions of this chapter.
- E. The term "owner" as used throughout this chapter includes any agent of owner acting on behalf of the owner to control or otherwise regulate the occupancy or use of the property.

11-10-3 Notification of property owner

Notification of the posting of the notice of unruly residential activity shall be mailed to any property owner at the address shown on the Pima County property tax assessment records. The notification shall advise the property owner that any subsequent unruly activity within 120 days on the same premises shall result in liability of the property owner for all applicable penalties as provided in this chapter. Notification shall be made by certified mail. The return receipt shall be prima facie evidence of service.

11-10-4 Subsequent unruly residential activity a civil infraction; parties liable

- A. The occurrence of an unruly residential activity on the same premises more than once in any 120-day period shall be a civil infraction. The following parties, if found responsible for the infraction, shall be liable for the penalties provided in section 11-10-5.
1. The owner of the property where the unruly residential activity occurred, provided that notification of posting was mailed to the owner of the property as provided in section 11-10-3 and that the unruly residential activity occurred not less than two weeks after the mailing of the notification.

The town attorney corrected the cross-reference in section 11-10-4 paragraphs A and A.1 on May 17, 2010 as a scrivener's error under authority of section 1-4-5

2. The owner, occupant, or tenant of the property where the unruly residential activity occurred.
 3. The person or persons who organized or sponsored the event constituting the unruly residential activity.
 4. Any person in attendance at the unruly residential activity who engaged in any conduct causing the activity to be unruly.
- B. Nothing in this section shall be construed to impose liability on the owner, occupant, or tenant of the premises or sponsor of the event constituting the unruly residential activity, for the conduct of persons who are in attendance without the express or implied consent of the owner, occupant, tenant, or sponsor, as long as the owner, occupant, tenant or sponsor has taken all steps reasonably necessary to exclude the uninvited persons from the premises, including owners who are actively attempting to evict a tenant from the premises. Where an invited person engages in unlawful conduct which the owner, occupant, tenant or sponsor could not reasonably foresee and could not reasonably control without the intervention of the police, the unlawful conduct of the person shall not be attributable to the owner, occupant, tenant or sponsor for the purposes of determining liability under this section.

14-3-2 Deposits

- A. Requirement of deposit; amount. The town may require a deposit from an applicant for service not to exceed twice the average monthly bill for the account or in the case of a new account, twice the estimated monthly bill, or in the case of an account which has shown delinquency for three consecutive months as a condition of providing service. A separate deposit may be required for each service connection.
- B. Deposit; refund. Deposits shall be refunded when the customer moves or requests a discontinuance of service, as long as all bills are paid in full. No interest shall be paid to customers on deposits. Deposit refunds shall be made to the individual whose name is on the account at the time of the refund.

- C. The town will install its water meter at the property line or in the public right-of-way.
- D. Where the meter or service line location is changed at the request of the customer or due to alterations on the customer's premises, the customer shall provide and have installed at his expense all piping necessary for relocating the meter, and the town may charge for moving the meter or service line.
- E. The customer's lines or piping must be installed in a way that prevents cross-connection or backflow.

14-3-5 Easements and rights of-way

- A. Each town utility customer shall grant adequate easements or rights-of-way satisfactory to the town to ensure that customer service connections are accessible by the town.

- B. The customer's failure to grant adequate easements or rights-of-way shall be grounds for the town to refuse utility service.

When the town discovers that a customer is performing work or has constructed facilities adjacent to or within an easement or right-of-way and the work, construction or facility poses a hazard or is in violation of federal, state or town laws, ordinances, statutes, rules or regulations, or may significantly interfere with the town's access to its utility facilities or equipment, the town shall notify the customer and shall take whatever actions are necessary to eliminate the hazard, obstruction or violation at the customer's expense.

CHAPTER 14-4. CONSTRUCTION AND FINANCING OF UTILITY FACILITIES

14-4-1 Agreements to construct new facilities

- A. Approval of agreements to construct new facilities. The council may permit the construction of facilities to provide utility service in areas where no water or sewer service is available, or where existing water or sewer facilities are inadequate.
 - 1. Agreements for construction of utility facilities shall provide that all costs be at the sole expense of the applicant for service, except as otherwise noted in the agreement.
 - 2. Costs shall include, but not be limited to, engineering and design fees, materials, labor, applicable taxes, permits and inspection fees.

If the agreement conforms to the provisions of this title, the town utilities director may submit the agreement for approval to the council.

14-4-3 Capacity requirements

- A. Water or wastewater system capacity requirements. The town utilities director may require an applicant to install “on-site” or “off-site” water and/or wastewater facilities of a size greater than is required to provide service to applicant’s development. This requirement to install oversized facilities is referred to as oversizing.
- B. Refunds. Refunds of the cost of oversizing shall be solely by agreement approved by the council. If infrastructure is installed pursuant to this section so as to provide service to a property not participating in the construction cost (a “non-participating property”), the town may enter into an agreement for partial refund of the cost of the infrastructure, subject to the following:
1. In no case will the agreed refunded amount exceed the total funds to be collected as oversizing charges pursuant to this section.
 2. Refunds shall continue for a term set forth in the agreement, and any balances remaining unpaid upon termination shall be canceled, and the town shall be fully discharged from any further obligation under the agreement.
 3. No interest shall accrue on any costs advanced by an applicant which are agreed to be refunded by the town.
- C. Oversizing recovery charge. The council may, at its sole option, establish an “oversizing recovery charge” to be charged proportionately to each subsequent connection by non-participating property owners made to or benefiting from the oversizing.

C. Special provisions relating to sewer service.

1. Sewer service provided by the town shall be only for the benefit of the customer's premises and shall not be extended to any other property.
2. Nothing shall be discharged into the sewer collection system which is prohibited by law, may lead to a sanitary sewerage overflow, or adversely affects the operation or maintenance of the collection system. This prohibition includes but is not limited to oil, grease, and flammable material.
3. Disregard for this provision shall be sufficient cause for refusal or discontinuance of sewer service by the town.

D. Each customer shall provide the town and its employees and agents the right of safe ingress and egress to the customer's premises for any purpose reasonably related to the town's provision of utility service to the premises.

14-5-2 Payment of bills

Utility rates, charges or fees are due and payable to the town upon billing. Any rates, charges or fees not paid in full by the next billing date are subject to a late charge, in addition to the balance due, in an amount established by a fee schedule adopted by the council and amended from time to time.

If a delinquent bill is not paid and no challenge has been made to the accuracy of the bill after the notice of delinquency, the water supply will, without further notice, be turned off, and not turned on until all sums due are paid in full, together with a charge for reconnection after delinquency as provided in [chapter 14-6](#).

B. Pursuant to A.R.S. § 9-511.02, the town may file a lien on the property for unpaid fees that are at least 90 days delinquent. The town may enforce the lien by any method permitted by law. Unpaid fees shall accrue interest at the rate provided by A.R.S. § 44-1201.

14-5-5 Reconnection of service

In no case shall any individual or plumber turn on the water supply to any building or any supply pipe where the supply has been turned off for the nonpayment of the monthly water bill or for the violation of any provision of this title. All water that has been turned off by the town water utility shall only be turned on again by the employees or agents of the town water utility.

14-5-6 Challenge of accuracy of utility bill

- A. The procedure by which a customer may challenge the accuracy of a utility bill and the determination of the validity of the challenge shall be as follows:

 2. The customer may request that the water meter be re-read or tested, provided the customer pays the meter re-read charge or the meter test charge in advance in the amount established by a fee established by the schedule adopted by the council and amended from time to time. A request for meter re-read or meter test, paid for by the customer, shall constitute a challenge to the accuracy of the bill.
 3. The town shall send the customer a corrected bill and refund the cost of the meter re-read or meter test if the bill is found to be in error either because the meter was misread or because a meter test shows that the meter over-calculated the volume by more than 3%. Customer shall have 20 days to pay the corrected bill.
 4. The utilities director is authorized to negotiate a mediation process mutually acceptable to the utilities director and the customer. The customer shall deposit the full estimated cost of the mediation process with the utilities department. The mediation shall make a final determination of the validity of the customer's challenge and whether the town should be required to pay all or a portion of the cost of the mediation process.
 5. The customer's utility service shall not be terminated during the mediation process.

14-5-7 Deposit requirement after termination

If utility service is terminated due to nonpayment of a delinquent bill, the town shall require payment in full of all amounts due and owing and payment of a utility deposit as a condition of reestablishing service.

CHAPTER 14-7. EMERGENCY WATER CONSERVATION RESPONSE

14-7-1 Declaration of policy

It is hereby declared that because of varying conditions related to water resource supply and distribution system capabilities operated by the town, it is necessary to establish and enforce methods and procedures to ensure that in time of emergency shortage of the local water supply, (1) the water resources available to the customers of the water system are put to the maximum beneficial use, (2) the unreasonable use, or unreasonable method of use is prevented, and (3) the conservation of water is accomplished in the interests of the customers of the town water utility, customers of other water utilities located within the town and for the public health, safety, and welfare of the residents of the town.

14-7-2 Definitions

A. In this chapter, unless the context otherwise requires:

1. "Economic hardship" means a threat to an individual's or business' primary source of income.
2. "Notification to the public" means notification through local media, including interviews, and issuance of news releases.
3. "Outdoor watering day" means a specific day, as described in a specific outdoor watering plan, during which irrigation with sprinkler systems or otherwise may take place.

14-7-3 Application

- A. This chapter applies to all municipal and industrial water utility customers who own, occupy, or control water used on any premises as defined in this chapter. This chapter shall not apply to any agricultural use of water furnished by an irrigation district.
- B. No person shall make, cause, use, or permit the use of water received from the town water utility or any other municipally owned or privately owned water utility providing water service within the town for residential, commercial, industrial, governmental or any other purpose in any manner contrary to any provision in this chapter.
- C. Mandatory emergency conservation measures shall be implemented based upon the declaration of an emergency pursuant to section [14-7-4](#).

14-7-4 Declaration of water emergency authorized

The council, or in the absence of a quorum, the mayor or the vice mayor, upon the recommendation of the town manager, is hereby authorized to declare a water emergency and to implement mandatory conservation measures as set forth in this chapter.

14-7-5 Implementation; termination

- A. The town manager shall develop guidelines which set forth general criteria to assist the council, or in the absence of a quorum the mayor or the vice mayor, in determining when to declare a water emergency. Upon declaration of a water emergency, the town manager shall report in writing to the council providing the reasons for and expected duration of the emergency and describing implementation of emergency water conservation measures.
- B. A water emergency may be declared for a specific water utility system, such as, but not limited to, the town water utility system, the city of Tucson water utility system located within the town, or any other public or private water utility system located within the town, which is unable to provide adequate quantities, qualities or pressure of water delivery in compliance with Arizona department of environmental quality standards or regulations, or fire flow requirements, and which constitutes a danger to the public health, safety and welfare of the residents of that water utility system.
- C. The declaration of a water emergency shall be specific to the water utility system which is unable to provide adequate quantities, qualities or pressure of water delivery in compliance with Arizona department of environmental quality standards or regulations, or fire flow requirements, and to the water customers of that water utility system.
- D. The owner or operator of a water utility system located within the town boundaries may request, in writing, that the town declare a water emergency pursuant to this chapter for its water utility system, setting forth the reasons and justification for it.
- E. The water emergency shall be declared terminated when the condition or conditions giving rise to the water emergency end. The declaration terminating the emergency shall be adopted by the agency with jurisdiction over the emergency, or if none, upon majority vote of the council, or in the absence of a quorum, the mayor or the vice mayor. Upon termination, the mandatory conservation measures shall no longer be in effect.

14-7-6 Mandatory emergency water conservation measures

- A. Upon declaration of a water emergency and notification to the public, the mandatory restrictions upon nonessential users set forth in the adopted drought preparedness plan and/or the following restrictions shall be enforced as to the customers of the water utility system for which the water emergency was declared.
 - 1. All outdoor irrigation is prohibited, except for irrigation water provided by an irrigation district for agricultural use. If the town manager deems it appropriate, a schedule designating certain outdoor watering days may be implemented in place of the irrigation ban.

*The Marana Drought Preparedness Plan adopted by Marana Resolution 2007-177 can be found here
[[^]insert link]*

2. Washing of sidewalks, driveways, parking areas, tennis courts, patios, or other paved areas with water, except to alleviate immediate health or safety hazards, is prohibited.
3. The outdoor use of any water-based play apparatus is prohibited.
4. The operation of outdoor misting systems used to cool public areas is prohibited.
5. The filling of swimming pools, fountains, spas, or other related exterior water features is prohibited.
6. The washing of automobiles, trucks trailers and other types of mobile equipment is prohibited, except at facilities equipped with wash water recirculation systems, and for vehicles requiring frequent washing to protect public health, safety and welfare.

14-7-7 Variance

The town manager, or the town manager's designee, is authorized to review hardship cases and special cases within which strict application of this chapter would result in serious hardship to a customer. A variance may be granted only for the reasons involving health, safety, or economic hardship. Application for a variance from requirements of this chapter must be made on a form provided by the town manager.

14-7-8 Violation

- A. If there is any violation of this chapter, the water utility for which the emergency was declared shall:
1. Place a written notice of violation on the property where the violation occurred; and
 2. Mail a duplicate notice to:
 - a. The person who is regularly billed for the service where the violation occurred; and
 - b. Any person responsible for the violation, if known to the town or the water utility.
- B. The notice of violation shall:
1. Order that the violation be corrected, ceased, or abated within a specified time the town or water utility determines is reasonable under the circumstances, and
 2. Contain a description of the fees and penalties associated with the violation.
- C. The town or the water utility may disconnect the service where the violation occurred for failure to comply with the order set forth in the notice of violation.
- D. Nothing in this section shall conflict with the rules and regulation and approved tariffs of the Arizona corporation commission as

they may apply to public service corporations furnishing water service within the town.

14-7-9 Enforcement

The provisions of this chapter shall be enforced by employees of the water utility that serves the property where the violation occurred.

CHAPTER 14-8. BACKFLOW PREVENTION AND CROSS-CONNECTION CONTROL

14-8-1 Purposes

- A. To protect the public potable water supply from the possibility of contamination or pollution.
- B. To promote the elimination and control of actual or potential customer cross-connections.
- C. To provide for a continuing program of cross-connection control.

14-8-2 Backflow prevention required

- A. An approved backflow prevention method or device shall be utilized or installed at every water system service connection and usage point when required by applicable state and federal regulations.
- B. The town shall determine the backflow prevention method based on the degree of hazard.

14-8-3 Definitions

- A. Contamination: An impairment of the quality of the water which creates an actual hazard to the public health through poisoning or through the spread of disease by sewage, industrial fluids, waste, etc.
- B. Cross-connection: Any unprotected actual or potential connection or structural arrangement between a public or a consumer's potable water system and any other source or system through which it is possible to introduce into any part of the potable system any used water, industrial fluid, gas, or substance other than the intended potable water with which the system is supplied. Bypass arrangements, jumper connections, removable sections, swivel or change-over devices and other temporary or permanent devices through which or because of which backflow can occur are considered to be cross-connections.
 - 1. Direct cross-connection: A cross-connection which is subject to both backsiphonage and backpressure.
 - 2. Indirect cross-connection: A cross-connection which is subject to backsiphonage only.

- C. Degree of hazard: Either a pollutional (non-health) or contamination (health) hazard, derived from the evaluation of conditions within a system.
- D. Hazard: An actual or potential threat which could damage public water utility infrastructure or negatively affect potable water quality.
1. Plumbing hazard: An internal or plumbing type cross-connection in a consumer's potable water system that may be either a pollutional or a contamination type hazard. Plumbing type cross-connections can be located in many types of structures including homes, apartment houses, hotels and commercial or industrial establishments. Such a connection, if permitted to exist, must be properly protected by an appropriate type of backflow prevention assembly.
 2. System hazard: An actual or potential threat of severe danger to the physical properties of the public or the consumer's potable water system or of a pollution or contamination which would have a protracted effect on the quality of the potable water in the system.
- E. Pollution: An impairment of the quality of the water to a degree which does not create a hazard to the public health but which does adversely and unreasonably affect the esthetic qualities of such waters for domestic use.

14-8-4 Backflow prevention methods or devices

- A. A backflow prevention method or device is any assembly or other means that prevents backflow. The following are recognized backflow prevention methods the town may require under section 14-8-2 or 14-8-5.
1. Air gap: A physical separation between the free flowing discharge end of a potable water supply pipeline and an open or non-pressure receiving vessel. An approved air gap shall be at least double the diameter of the supply pipe measured vertically above the overflow rim of the vessel, and in no case less than one inch.
 2. Reduced pressure principle assembly ("RPA"): An assembly containing two independently acting approved check valves together with a hydraulically operating, mechanically independent pressure differential relief valve located between the check valves and at the same time below the first check valve. The unit shall include properly located resilient seated test cocks and tightly closing resilient seated shut off valves at each end of the assembly.
 3. Double check valve assembly ("DCVA"): An assembly composed of two independently acting, approved check valves, including tightly closing resilient seated shutoff valves attached at each end of the assembly and fitted with properly located re-

silient seated test cocks. This assembly shall only be used to protect against a non-health hazard (i.e., pollutant).

4. Double check-detector assembly ("DCDA"): A specially designed assembly composed of a line-size approved double check valve assembly with a bypass containing a specific water meter and an approved double check valve assembly. The meter shall register accurately for only very low rates of flow up to three gallons per minute and shall show a registration for all rates of flow. This assembly shall only be used to protect against a non-health hazard (i.e., pollutant). The DCDA is primarily used on fire sprinkler systems.
5. Pressure vacuum breaker assembly ("PVB"): An assembly containing an independently operating internally loaded check valve and an independently operating loaded air inlet valve located on the discharge side of the check valve. The assembly shall be equipped with properly located resilient seated test cocks and tightly closing resilient seated shutoff valves attached at each end of the assembly. This assembly is designed to protect against a non-health hazard (i.e., pollutant) or a health hazard (i.e., contaminant) under a backsiphonage condition only.

B. The utilities director may approve a backflow prevention method not listed above if it has received the approval of the foundation for cross-connection control and hydraulic research of the University of Southern California.

14-8-5 Backflow prevention methods required

- A. The activities listed below require an RPA at each service connection to the potable water system:
1. Cooling tower, boiler, condenser, chiller, or other cooling system
 2. Tank, water vessel, water receptacle, and any other water connection without an approved air gap, including a mobile unit (except emergency vehicles and private swimming pools)
 3. Commercial ice maker
 4. Water cooled equipment, booster, pump or autoclave
 5. Commercial or industrial water treatment facility or water processing equipment
 6. Commercial or industrial washer for bottles, bedpans, garbage cans, and the like
 7. Commercial or industrial pesticide, herbicide, fertilizer, or chemical applicator
 8. Aspirator

9. Commercial dishwasher, food processing or preparation equipment, carbonation equipment, or other food service process
 10. Decorative fountain, baptismal, or similar feature where water is exposed to the air (except at a private residence)
 11. X ray equipment, plating equipment, or photographic processing equipment
 12. Auxiliary water supply or connection to a water supply system other than the town potable water system
 13. Recreational vehicle sewer dump station or any other location where potable water may be exposed to bacteria, viruses, or gas
 14. Any premises where chemicals, oils, solvents, pesticides, disinfectants, cleaning agents, acids or other pollutants and/or contaminants may come in direct contact with potable water (other than normal, infrequent residential applications)
 15. Any material or piping system not approved by the uniform plumbing code or the environmental protection agency for potable water usage
 16. Any premises with a cross-connection that requires internal backflow protection under the uniform plumbing code
 17. Any on-site water system served by more than one meter
 18. Any structure having any portion of the water distribution system located 34 feet or more above, or three or more stories above, where the potable water supply enters the structure
 19. Any fire system falling within American water works association classes 3 through 6
- B. The activities listed below require the following specified method or methods of backflow prevention at each service connection to the potable water system.
1. Separately metered or unprotected irrigation systems and construction water services: RPA or PVB.
 2. Unless exempted by an applicable fire code, any fire system falling within American water works association classes 1 and 2 or constructed of a piping material not approved for potable water pursuant to the UPC as adopted by the town: DCVA or DDCVA
 3. Where backflow protection is required on premises containing both industrial and domestic service, backflow protection shall be provided on the fire service connection for the highest degree of hazard affecting either system.
- C. When two or more of the activities listed above are conducted on the same premises and serviced by the same service connection or

multiple service connections, the most restrictive backflow prevention method required for any of the activities conducted on the premises shall be required at each service connection. The order of most restrictive to least restrictive backflow prevention methods shall be as follows:

1. Air gap
2. RPA
3. DCVA
4. PVB

14-8-6 Backflow assembly installation requirements

- A. Each backflow prevention assembly shall have a diameter at least equal to the diameter of the service connection.
- B. Each backflow prevention assembly shall be in an accessible location approved by the utilities department.
- C. Each RPA, PVB, and DCVA backflow prevention assembly shall be installed at least 12 inches above ground.
- D. When a continuous water supply is required, two parallel backflow prevention assemblies shall be installed at the service connection to avoid interruption of water supply during backflow prevention assembly testing.
- E. No person shall alter, modify, bypass or remove a backflow prevention assembly or method without the approval of the utilities department.

14-8-7 Installation of backflow prevention assemblies for fire systems

In addition to the requirements of section [14-8-5](#), the following shall also apply:

- A. Fire protection systems consist of sprinklers, hose connections, and hydrants. Sprinkler systems may be dry or wet, open or closed. Systems of fixed-spray nozzles may be used indoors or outdoors for protection of flammable-liquid and other hazardous processes. It is standard practice, especially in towns, to equip automatic sprinkler systems with fire department pumper connections.
- B. A meter (compound, detector check) should not normally be permitted as part of a backflow prevention assembly. An exception may be made, however, if the meter and backflow prevention assembly are specifically designed for that purpose.
- C. For cross-connection control, fire protection systems shall be classified on the basis of water source and arrangement of supplies as follows:

1. Class 1: direct connections from public water mains only; no pumps, tanks, or reservoirs; no physical connection from other water supplies; no antifreeze or other additives of any kind; all sprinkler drains discharging to atmosphere, dry wells, or other safe outlets.
 2. Class 2: same as class 1, except that booster pumps may be installed in the connections from the street mains. Booster pumps do not affect the potability of the system; it is necessary, however, to avoid drafting so much water that pressure in the water main is reduced below 20 psi.
 3. Class 3: direct connection from public water supply main plus one or more of the following: elevated storage tanks; fire pumps taking suction from above-ground covered reservoirs or tanks; and pressure tanks (all storage facilities are filled or connected to public water only, the water in the tanks to be maintained in a potable condition.) Otherwise, class 3 systems are the same as class 1 systems. Class 3 systems will generally require minimum protection (approved double check valves) to prevent stagnant waters from backflowing into the public potable water system.
 4. Class 4: directly supplied from public mains similar to classes 1 and 2, and with the auxiliary water supply on or available to the premises; or an auxiliary supply may be located within 1,700 feet of the pumper connection. Class 4 systems will normally require backflow protection at the service connection. The type (air gap or RPA) will generally depend on the quality of the auxiliary supply.
 5. Class 5: directly supplied from public mains, and interconnected with auxiliary supplies, such as pumps taking suction from reservoirs exposed to contamination, or rivers and ponds; driven wells, mills or other industrial water systems; or where anti-freeze or other additives are used. Class 4 and 5 systems normally would need maximum protection (air gap or RPA) to protect the public potable water system.
 6. Class 6: combined industrial and fire protection systems supplied from the public water mains only, with or without gravity storage or pump suction tanks. Class 6 system protection would depend on the requirements of both industry and fire protection, and could only be determined by a survey of the premises.
- D. When a backflow prevention assembly is required for a water service connection supplying water only to a fire system, the assembly shall be installed on the service line in compliance with standard specifications adopted by the town. (Installation of DCVAs or DDCVAs in a vertical position on the riser may be allowed on fire systems with the approval of the utilities director.)

14-8-8 Inspections

A customer's water system shall be available at all times during business operations for premises inspection by the utilities department. The inspection shall be conducted to determine whether any cross-connection or other hazard potentials exist and to determine compliance with this chapter.

14-8-9 Backflow permit required

- A. Installation: Unless included as a component of a building permit for new construction, a separate backflow permit shall be obtained from the utilities department for the installation of each backflow prevention assembly required by this chapter, including a replacement assembly.
- B. Notification: The person performing work authorized by a backflow permit shall notify the utilities department at least 24 hours before the work is ready to be inspected.
- C. Permit suspension or revocation: The utilities department may suspend or revoke a permit issued in error or in violation of any applicable ordinance or regulation.

14-8-10 Test; maintenance; records

- A. The customer shall test and service backflow prevention assemblies at least once a year. If the testing reveals that the assembly is defective, the customer shall repair, replace, or overhaul the assembly to satisfactory operating condition.
- B. If the utilities department or a customer learns or discovers between tests that an assembly is defective, the customer shall repair, replace, or overhaul the assembly to satisfactory operating condition.
- C. The annual testing shall be performed by an individual certified by an entity approved by the utilities department to test backflow prevention assemblies. The utilities department will maintain and make available upon request a list of individuals certified to test backflow prevention assemblies.
- D. The customer shall maintain records of all test results and all servicing, repairs, overhauls or replacements of the backflow prevention assembly. The records shall be maintained on forms approved by the utilities department. A copy of the records shall be promptly submitted to the utilities department after completion of the activity for which the record is made.
- E. Fire systems shall not be out of service for more than eight consecutive hours due to testing, maintenance, or repairs. The local fire department shall be notified immediately of any changes in fire service status.

14-8-11 Modification of backflow prevention requirements

The utilities department may modify the requirements of section 14-8-5 if both of the following apply:

- A. Inspection of the customer's system indicates that a backflow prevention method less restrictive than required in section 14-8-5 will provide adequate protection of the public potable water supply from the degree of hazard potential by the customer's water system.
- B. The less restrictive method is supported by industry best management practices.

14-8-12 Discontinuance of water service

- A. If a required backflow prevention method is not installed or has been bypassed or removed, or an unprotected cross-connection exists in the customer's water system, the water service to that service connection shall be disconnected. The utilities department shall take reasonable steps to notify the customer before, and if unable to do so, after the disconnection. The service shall not be restored until the condition is corrected.
- B. If a required backflow prevention method is not properly tested or maintained, the utilities department shall issue a notice to the customer requiring the condition to be corrected within the time specified in the notice, which shall be not less than seven days. If not corrected within the time specified in the notice, water service shall be disconnected. The service shall not be restored until the condition is corrected.
- C. Water service to a fire sprinkler system shall not be disconnected unless a cross-connection exists and presents an imminent threat to the public potable water supply.

14-8-13 Fees

The fee for any permit required pursuant to the terms of this chapter shall be established by a fee schedule adopted by the council and amended from time to time.

14-8-14 Violation

It shall be a civil offense, punishable by a \$250 fine, for any person to violate any of the requirements of this chapter. Each day a violation continues shall be considered a separate offense.

CHAPTER 14-9. VIOLATIONS**14-9-1 Unauthorized installation and repair prohibited**

Town utilities shall be connected only by authorized town employees or agents. It is unlawful for any person to connect to or repair any town utility service.

14-9-2 Turning on water without authority prohibited

It is unlawful for any unauthorized person to connect to the town water utility a water service that the utilities department has disconnected.

14-9-3 Escaping water prohibited; applicability; exceptions

- A. No person shall allow water to escape from his or her premises onto public property, such as drainageways, alleys, roads or streets.
- B. No person shall allow water to escape from his or her premises onto any other person's property without that other person's express written permission.
- C. This section shall apply to all property located within the Marana town limits and to all property located outside the Marana town limits that is served by the Marana water utility.
- D. This section shall not apply to the following:
1. Stormwater runoff.
 2. Irrigation of landscaping on public property as expressly authorized by the owner of the public property.
 3. Reasonable, short-duration runoff from the washing of vehicles.
 4. Broken or malfunctioning irrigation equipment, provided that the escape of water is halted promptly and in any event not more than 24 hours after the responsible party has actual notice of the break or malfunction.
 5. Disposal of pool or spa backwash water in conformance with section 314 of the 2006 Marana pool and spa code.
 6. Any escape of water which is, in the opinion of the investigating code compliance officer, similar in nature or scope to the exceptions set forth in this section.

Ordinance 2012.12 comprehensively revised section 14-9-3, formerly entitled "Escaping water flow or runoff prohibited"

14-9-4 Interference, tampering with utility facilities

No person shall do any of the following without a permit from the utilities department or in violation of permit conditions, except under the fire department's direction during a fire:

- A. Open or close any fire hydrant or valve connected to the town's water system.
- B. Lift or remove any valve, shutoff cover, or manhole lid.
- C. Tap into the town water distribution system or wastewater collection system.
- D. Otherwise remove water from the town water utility system.
- E. Otherwise discharge into the town wastewater collection system.

14-9-5 Damaging or defacing facilities

It is unlawful for any person to destroy, deface, impair, damage, or force open any gate, door, reservoir, building, storage tank, manhole, treatment facility, pump station, fence, fixture, or other property appertaining to town utilities.

14-9-6 Penalties

- A. Any violation of this title shall be a civil offense punishable by a fine of not more than \$250. This shall be in addition to any other available remedy. Each day a violation continues is a separate offense.
- B. Under appropriate circumstances a violation of this title may also be prosecuted under the public health security and bioterrorism preparedness and response act of 2002.

Some or all of the capital facilities providing service to a service area may be physically located outside of that service area provided that the required substantial nexus or direct benefit is demonstrated to exist.
48. Single family residential land use subcategory: Detached and attached residential structures characteristic of a primary residence, even if the residence is subsequently rented. Mobile homes and manufactured homes on individual parcels, and duplexes, triplexes, condominiums, and townhomes are assessed at the single family residential land use rate. See also ITE land use category 210.

52. Substantial nexus: A substantial nexus exists where the demand for necessary public services that will be generated by an EDU can be reasonably quantified in terms of the burden it will impose on the available capacity of existing capital facilities, the need it will create for new or expanded capital facilities, and/or the benefit to the development from those capital facilities.
53. Swimming pool: A public facility primarily designed and/or utilized for recreational non-competitive functions generally occurring within water, including, but not limited to, swim-

17-17-4 Applicability

- A. Except as otherwise provided in this chapter, this chapter shall apply to all new development within any service area, except for the development of any town facility.
- B. The provisions of this chapter shall apply to all of the territory within the corporate limits of the town and within the town's water and wastewater service areas.
- C. The town manager or the town manager's designee is authorized to make determinations regarding the application, administration and enforcement of the provisions of this chapter.

17-17-5 Authority for development impact fees

- A. Fee report and implementation. The town may assess and collect a development impact fee for costs of necessary public services, including all professional services required for the preparation or revision of an infrastructure improvements plan, fee report, development impact fee, and required reports or audits conducted pursuant to this chapter. Development impact fees shall be subject to the following requirements:
 1. The town shall develop and adopt a fee report that analyzes and defines the development impact fees to be charged in each service area for each capital facility category, based on the in-

infrastructure improvements plan and the plan-based cost per EDU calculated pursuant to section 17-17-8 A. 13 below.

2. Development impact fees shall be assessed against all new commercial, residential, and industrial developments, provided that the town may assess different amounts of development impact fees against specific categories of development based on the actual burdens and costs that are associated with providing necessary public services to that category of development. No development impact fee shall exceed the plan-based cost per EDU for any category of development.
 3. No development impact fees shall be charged, or credits issued, for any capital facility that does not fall within one of the categories of necessary public services for which development impact fees may be assessed as identified in section 17-17-8 A. 1 below.
 4. Costs for necessary public services made necessary by new development shall be based on the same level of service provided to existing development in the same service area. Development impact fees may not be used to provide a higher level of service to existing development or to meet stricter safety, efficiency, environmental, or other regulatory standards to the extent that these are applied to existing capital facilities that are serving existing development.
 5. Development impact fees may not be used to pay the town's administrative, maintenance, or other operating costs.
 6. Projected interest charges and financing costs can only be included in development impact fees to the extent they represent principal and/or interest on the portion of any financing or debt used to finance the construction or expansion of a capital facility identified in the infrastructure improvements plan.
 7. Except for any fees included on interim fee schedules, all development impact fees charged by the town must be included in a "fee schedule" prepared pursuant to this chapter and included in the fee report.
 8. All development impact fees shall meet the requirements of A.R.S. § 9-463.05.
- B. Costs per EDU. The fee report shall summarize the costs of capital facilities necessary to serve new development on a per EDU basis as defined and calculated in the infrastructure improvements plan, including all required offsets, and shall recommend a development impact fee structure for adoption by the town. The actual impact fees to be assessed shall be disclosed and adopted in the form of impact fee schedules.
- C. Carry-over of previously-established development impact fees and grandfathered facilities. Notwithstanding the requirements of this chapter, certain development impact fees adopted by the town pri-

or to the effective date of this chapter shall continue in effect as follows:

1. The lower Santa Cruz levee fee adopted by Marana ordinance number 99.02 shall remain in effect until the full \$1,875,000 indebtedness covered by the fee is paid.
2. The Marana south transportation development impact fee adopted by Marana ordinance number 2001.02 and modified by Marana ordinance number 2006.12 shall remain in effect until the full Twin Peaks/I-10 Interchange indebtedness is paid.
3. Defined terms in any previously established fee schedule shall be interpreted according to the ordinance in effect at the time of their adoption.

17-17-6 Administration of development impact fees

- A. Separate accounts. Development impact fees collected pursuant to this chapter shall be placed in separate, interest-bearing accounts for each capital facility category within each service area.
- B. Limitations on use of fees. Development impact fees and any interest on them collected pursuant to this chapter shall be spent to provide capital facilities associated with the same category of necessary public services in the same service area for which they were collected, including costs of financing or debt used by the town to finance those capital facilities and other costs authorized by this chapter that are included in the infrastructure improvements plan.
- C. Time limit. Development impact fees collected after July 31, 2014 shall be used within ten years of the date upon which they were collected for all categories of necessary public services except for water and wastewater facilities. For water facilities or wastewater facilities collected after July 31, 2014, development impact fees shall be used within 15 years of the date upon which they were collected.

17-17-7 Land use assumptions

- A. Consistency. The infrastructure improvements plan shall be consistent with the town's current land use assumptions for each service area and each category of necessary public services as adopted by the town pursuant to A.R.S. § 9-463.05.
- B. Reviewing the land use assumptions. Prior to the adoption or amendment of an infrastructure improvements plan, the town shall review and evaluate the land use assumptions on which the infrastructure improvements plan is to be based to ensure that the land use assumptions within each service area conform with the general plan.
- C. Evaluating necessary changes. If the land use assumptions upon which an infrastructure improvements plan is based have not been updated within the last five years, the town shall evaluate the land

On July 9, 2014, the town attorney corrected the statutory reference in paragraph A based on the authority granted by town code section 1-4-5

use assumptions to determine whether changes are necessary. If, after general evaluation, the town determines that the land use assumptions are still valid, the town shall issue the report required in section 17-17-10 below.

- D. Required modifications to land use assumptions. If the town determines that changes to the land use assumptions are necessary in order to adopt or amend an infrastructure improvements plan, it shall make such changes as necessary to the land use assumptions prior to or in conjunction with the review and approval of the infrastructure improvements plan pursuant to section 17-17-10 below.

17-17-8 Infrastructure improvements plan

- A. Infrastructure improvements plan contents. The infrastructure improvements plan shall be developed by qualified professionals and may be based upon or incorporated within the town's capital improvements plan. The infrastructure improvements plan shall:
1. Specify the categories of necessary public services for which the town will impose a development impact fee, which may include any or all of the following:
 - a. Water
 - b. Wastewater
 - c. Stormwater, drainage, and flood control
 - d. Street facilities
 - e. Parks
 - f. Police
 2. Define and provide a map of one or more service areas within which the town will provide each category of necessary public services for which development impact fees will be charged. Each service area must be defined in a manner that demonstrates a substantial nexus between the capital facilities to be provided in the service area and the EDUs to be served by those capital facilities. For parks larger than 30 acres, each service area must be defined in a manner that demonstrates a direct benefit between the capital facilities and the EDUs to be served by those capital facilities. The town may cover more than one category of capital facilities in the same service area provided that there is an independent substantial nexus or direct benefit, as applicable, between each category of necessary public services and the EDUs to be served.
 3. Identify and describe the land use assumptions upon which the infrastructure improvements plan is based in each service area.
 4. Analyze and identify the existing level of service provided by the town to existing EDUs for each category of necessary public services in each service area.

5. Identify the level of service to be provided by the town for each category of necessary public services in each service area based on the relevant land use assumptions and any established town standards or policies related to required levels of service. If the town provides the same category of necessary public services in more than one service area, the infrastructure improvements plan shall include a comparison of the levels of service to be provided in each service area.
6. For each category of necessary public services, analyze and identify the existing capacity of the capital facilities in each service area, the utilization of those capital facilities by existing EDUs, and the available excess capacity of those capital facilities to serve new EDUs including any existing or planned commitments or agreements for the usage of such capacity. The infrastructure improvements plan shall additionally identify any changes or upgrades to existing capital facilities that will be needed to achieve or maintain the planned level of service to existing EDUs, or to meet new safety, efficiency, environmental, or other regulatory requirements for services provided to existing EDUs.
7. Estimate the total number of existing and future EDUs within each service area based on the town's land use assumptions and projected new EDUs in each service area.
8. Based on the analysis in subparagraphs 17-17-8 A. 3 through 6 above, provide a summary table or tables describing the level of service for each category of necessary public services by relating the required capital facilities to EDUs in each service area, and identifying the applicable EDU factor associated with each category of development.
9. For each category of necessary public services, analyze and identify the projected utilization of any available excess capacity in existing capital facilities, and all new or expanded capital facilities that will be required to provide and maintain the planned level of service in each service area as a result of the new projected EDUs in that service area, for a period not to exceed ten years. Nothing in this subsection shall prohibit the town from additionally including in its infrastructure improvements plan projected utilization of, or needs for, capital facilities for a period longer than ten years, provided that the costs of such capital facilities are excluded from the calculation of the plan-based cost per EDU.
10. For each category of necessary public services, estimate the total cost of any available excess capacity and/or new or expanded capital facilities that will be required to serve new EDUs, including costs of land acquisition, improvements, engineering and architectural services, studies leading to design, design, construction, financing, and administrative costs, as well as projected costs of inflation. Such total costs shall not include

costs for ongoing operation and maintenance of capital facilities, nor for replacement of capital facilities to the extent that such replacement is necessary to serve existing EDUs. If the infrastructure improvements plan includes changes or upgrades to existing capital facilities that will be needed to achieve or maintain the planned level of service to existing EDUs, or to meet new regulatory requirements for services provided to existing EDUs, such costs shall be identified and distinguished in the infrastructure improvements plan.

11. Forecast the revenues from taxes, fees, assessments or other sources that will be available to fund the new or expanded capital facilities identified in the infrastructure improvements plan, which shall include estimated state-shared revenue, highway users revenue, federal revenue, ad valorem property taxes, construction contracting or similar excise taxes and the capital recovery portion of utility fees attributable to development based on the approved land use assumptions. The infrastructure improvements plan shall additionally estimate the time required to finance, construct and implement the new or expanded capital facilities.
12. Calculate required offsets as follows:
 - a. From the forecasted revenues in subparagraph 17-17-8 A. 11, identify those sources of revenue that: (i) are attributable to new development, and (ii) will contribute to paying for the capital costs of necessary public services.
 - b. For each source and amount of revenue identified pursuant to subparagraph 17-17-8 A. 12. a, calculate the relative contribution of each category of development to paying for the capital costs of necessary public services in each service area.
 - c. Based on the relative contributions identified pursuant to subparagraph 17-17-8 A. 12. b, for each category of necessary public services, calculate the total offset to be provided to each category of development in each service area.
 - d. For each category of necessary public services, convert the total offset to be provided to each category of development in each service area into an offset amount per EDU by dividing the total offset for each category of development by the number of EDUs associated with that category of development.
 - e. Beginning August 1, 2014, for purposes of calculating the required offset, if the town imposes a construction, contracting, or similar excise tax rate in excess of the percentage amount of the transaction privilege tax rate that is imposed on the majority of other transaction privilege tax classifications in the town, the entire excess portion of the construction, contracting, or similar excise tax shall be

treated as a contribution to the capital costs of necessary public services provided to new development unless the excess portion is already utilized for such purpose pursuant to this section.

- f. In determining the amount of required offset for land included in a community facilities district established under A.R.S. title 48, chapter 4, article 6, the town shall take into account any capital facilities provided by the district that are included in the infrastructure improvements plan and the capital costs paid by the district for such capital facilities, and shall offset impact fees assessed within the community facilities district proportionally.

13. Calculate the plan-based cost per EDU by:

- a. Dividing the total projected costs to provide capital facilities to new EDUs for each category of necessary public services in each service area as determined pursuant to subsection [17-17-8 A. 8 above](#) into the number of new EDUs projected for that service area over a period not to exceed ten years, considering the specific EDU factors associated with those EDUs for each category of necessary public services.
- b. Subtracting the required offset per EDU calculated pursuant to subsection [17-17-8 A. 12 above](#).

B. Multiple plans. An infrastructure improvements plan adopted pursuant to this section may address one or more of the town's categories of necessary public services in any or all of the town's service areas. Each capital facility shall be subject to no more than one infrastructure improvements plan at any given time.

C. Reserved capacity. The town may reserve capacity in an infrastructure improvements plan to serve one or more planned future developments, including capacity reserved through a development agreement pursuant to section [17-17-13 below](#). All reservations of existing capacity must be disclosed in the infrastructure improvements plan at the time it is adopted.

17-17-9 Adoption and modification procedures

A. Adopting or amending the infrastructure improvements plan. The infrastructure improvements plan shall be adopted or amended subject to the following procedures:

1. Major amendments to the infrastructure improvements plan. Except as provided in subparagraph [17-17-9 A. 2 below](#), the adoption or amendment of an infrastructure improvement plan shall occur at one or more public hearings according to the following schedule, and may occur concurrently with the adoption of an update of the town's land use assumptions as provided in section [17-17-7 above](#):

- a. Sixty days before the first public hearing regarding a new or updated infrastructure improvements plan, the town shall provide public notice of the hearing and post the infrastructure improvements plan and the underlying land use assumptions on its website; the town shall additionally make available to the public the documents used to prepare the infrastructure improvements plan and underlying land use assumptions and the amount of any proposed changes to the plan-based cost per EDU.
 - b. The town shall conduct a public hearing on the infrastructure improvements plan and underlying land use assumptions at least 30 days, but no more than 60 days, before approving or disapproving the infrastructure improvements plan.
2. Minor amendments to the infrastructure improvements plan. Notwithstanding the other requirements of this section, the town may update the infrastructure improvements plan and/or its underlying land use assumptions without a public hearing if all of the following apply:
- a. The changes in the infrastructure improvements plan and/or the underlying land use assumptions will not add any new category of necessary public services to any service area.
 - b. The changes in the infrastructure improvements plan and/or the underlying land use assumptions will not increase the level of service to be provided in any service area.
 - c. Based on an analysis of the fee report and the town's adopted development impact fee schedules, the changes in the infrastructure improvements plan and/or the underlying land use assumptions would not, individually or cumulatively with other amendments undertaken pursuant to this subsection, have caused a development impact fee in any service area to have been increased by more than 5% above the development impact fee that is provided in the current development impact fee schedule.
 - d. At least 30 days prior to the date that the amendment pursuant to this section is adopted, the town shall post the proposed amendments on the town website.

B. Amendments to the fee report. Any adoption or amendment of a fee report and fee schedule shall occur at one or more public hearings according to the following schedule:

1. The first public hearing on the fee report must be held at least 30 days after the adoption or approval of and infrastructure improvements plan as provided in subsection [17-17-9 A above](#). The town must give at least 30 days' notice prior to the hearing,

On July 9, 2014, the town attorney corrected the capitalization paragraph 2 based on the authority granted by town code section [1-4-5](#)

provided that this notice may be given on the same day as the approval or disapproval of the infrastructure improvements plan.

2. The town shall make the infrastructure improvements plan and underlying land use assumptions available to the public on the town's website 30 days prior to the public hearing described in subparagraph 17-17-9 B. 1 above.
3. The fee report may be adopted by the town no sooner than 30 days, and no later than 60 days, after the hearing described in subparagraph 17-17-9 B. 1 above.
4. The development fee schedules in the fee report adopted pursuant to this subsection shall become effective 75 days after adoption of the fee report by the town.

17-17-10 Timing for the renewal and updating of the infrastructure improvements plan and the land use assumptions

- A. Renewing the infrastructure improvements plan. Except as provided in subparagraph 17-17-10 B below, not later than every five years the town shall update the applicable infrastructure improvements plan and fee report related to each category of necessary public services pursuant to section 17-17-9 above. Such five-year period shall be calculated from the date of the adoption of the infrastructure improvements plan or the date of the adoption of the fee report, whichever occurs later.
- B. Determination of no changes. Notwithstanding subparagraph 17-17-10 A above, if the town determines that no changes to an infrastructure improvements plan, underlying land use assumptions, or fee report are needed, the town may elect to continue the existing infrastructure improvements plan and fee report without amendment by providing notice as follows:
 1. Notice of the determination shall be published at least 180 days prior to the end of the five-year period described in subparagraph 17-17-10 A above.
 2. The notice shall identify the infrastructure improvements plan and fee report that shall continue in force without amendment.
 3. The notice shall provide a map and description of the service area covered by the infrastructure improvements plan and fee report.
 4. The notice shall identify an address to which any resident of the town may submit, within 60 days, a written request that the town update the infrastructure improvements plan, underlying land use assumptions, and/or fee report and the reasons and basis for the request.
- C. Response to comments. The town shall consider and respond within 30 days to any timely requests submitted pursuant to subparagraph 17-17-10 B. 4 above.

17-17-11 Collection of development impact fees

A. Collection. Development impact fees shall be calculated and collected prior to issuance of permission to commence development; specifically:

1. Unless otherwise specified pursuant to a development agreement adopted pursuant to section 17-17-13 below, development impact fees shall be paid prior to issuance of a building permit according to the current development impact fee schedule for the applicable service area as adopted pursuant to this chapter, or according to any other development impact fee schedule as authorized in this chapter.
2. If a building permit is not required for the development, but water or wastewater connections are required, any and all development impact fees due shall be paid at the time the water service connection is purchased. If only a wastewater connection is required, the development impact fees shall be paid prior to approval of a connection to the sewer system. Wastewater development impact fees shall be assessed if a development connects to the public sewer, or as determined by the town utilities director, is capable of discharging sewage to a town public sewer.
3. If the development is located in a service area with a storm-water, drainage, and flood control development impact fee, and neither a building permit, water, or sewer service connection is required, the storm drainage development impact fee due shall be paid at the time a civil or site permit is issued for the development.
4. No building permit, water or sewer connection, or certificate of occupancy shall be issued if a development impact fee is not paid as directed in the previous paragraphs.
5. If the building permit is for a change in the type of building use, an increase in square footage, a change to land use, or an addition to a residential or non-residential point of demand to the water or wastewater system, the development impact fee shall be assessed on the additional service units resulting from the expansion or change, and following the development impact fee schedule applicable to any new use type.
6. For issued permits that expire or are voided, and the development impact fees paid for such development have not been refunded, the permittee shall pay the difference between any development impact fees paid at the time the permit was issued and those in the fee schedule at the time the permit is reissued or renewed.

B. Exceptions. Development impact fees shall not be owed under either of the following conditions:

1. Development impact fees have been paid for the development and the permit that triggered the collection of the development impact fees has not expired or been voided.
 2. The approval that triggers the collection of development impact fees involves modifications to existing residential or non-residential development that do not: (a) add new EDUs, (b) increase the impact of existing EDUs on existing or future capital facilities, or (c) change the land-use type of the existing development to a different category of development for which a higher development impact fee would have been due. To the extent that any modification does not meet the requirements of this paragraph, the development impact fee due shall be the difference between the development impact fee that was or would have been due on the existing development and the development impact fee that is due on the development as modified.
- C. Temporary exemptions from development impact fee schedules. New developments in the town shall be temporarily exempt from increases in development impact fees that result from the adoption of new or modified development impact fee schedules as follows:
1. Residential uses (other than multifamily). On or after the day that the first building permit is issued for a residential development (other than multifamily), the town shall, at the permittee's request, provide the permittee with an applicable development impact fee schedule that shall be in force for a period of 24 months beginning on the day that the first building permit is issued, and which shall expire at the end of the first business day of the 25th month after the first building permit is issued. During the effective period of the applicable development impact fee schedule, any building permit issued for the same residential development shall not be subject to any new or modified development impact fee schedule.
 2. All other uses. On or after the town's approval of a development plan or subdivision plat for a retail, high traffic retail, industrial, general office, medical facilities, institutional, recreational, or multifamily development, the town shall provide an applicable development impact fee schedule that shall be in force for a period of 24 months beginning on the day the development plan or subdivision plat was approved, and which shall expire at the end of the first business day of the 25th month after the development plan or subdivision plat was approved. During the effective period of the applicable development impact fee schedule, any building permit issued for the same development shall not be subject to any new or modified development impact fee schedule.
 3. Changes to development plans and subdivision plats. During the 24-month period referred to in subsection [17-17-11 C. 1](#) or [2](#) [above](#), if changes are made to a development's final develop-

ment plan or subdivision plat that will increase the number of service units, the town may assess any new or modified development impact fees against the additional service units. If the town reduces the amount of an applicable development impact fee during the 24-month period referred to in subsection 17-17-11 C. 1 or 2 above, the town shall assess the lower development impact fee.

- D. Option to pursue special fee determination. Where a development is of a type that does not closely fit within a particular category of development appearing on an adopted development impact fee schedule, or where a development has unique characteristics such that the actual burdens and costs associated with providing necessary public services to that development will differ substantially from that associated with other developments in a specified category of development, the town may require the applicant to provide the town engineer with an alternative development impact fee analysis. Based on a projection of the actual burdens and costs that will be associated with the development, the alternative development impact fee analysis may propose a unique fee for the development based on the application of an appropriate EDU factor to the applicable plan-based cost per EDU, or may propose that the development be covered under the development impact fee schedule governing a different and more analogous category of development. The town engineer shall review the alternative impact fee analysis and shall make a determination as to the development impact fee to be charged. The decision shall be appealable pursuant to section 17-17-14 below. The town engineer may require the applicant to pay an administrative fee to cover the actual costs of reviewing the special fee determination application.

17-17-12 Development impact fee credits and credit agreements

- A. Eligibility of capital facility. All development impact fee credits must meet the following requirements:
1. One of the following is true:
 - a. The capital facility, or the financial contribution toward a capital facility that will be provided by the developer and for which a credit will be issued, must be identified in an adopted Infrastructure improvements plan and fee report as a capital facility for which a development impact fee was assessed; or
 - b. The applicant must demonstrate to the satisfaction of the town that, given the class and type of improvement, the subject capital facility should have been included in the infrastructure improvements plan in lieu of a different capital facility that was included in the infrastructure improvements plan and for which a development impact fee was assessed. If the subject capital facility is determined to be eligible for a credit in this manner, the town shall amend the

infrastructure improvements plan to (i) include the subject replacement facility and (ii) delete the capital facility that will be replaced.

2. Credits shall not be available for any infrastructure provided by a developer if the cost of the infrastructure will be repaid to the developer by the town through another agreement or mechanism. To the extent that the developer will be paid or reimbursed by the town for any contribution, payment, construction, or dedication from any town funding source including an agreement to reimburse the developer with future collected development impact fees pursuant to section 17-17-13 below, any credits claimed by the developer shall be (a) deducted from any amounts to be paid or reimbursed by the town or (b) reduced by the amount of the payment or reimbursement.
- B. Eligibility of subject development. To be eligible for a credit, the subject development must be located within the service area of the eligible capital facility.
- C. Calculation of credits. Credits will be based on that portion of the costs for an eligible capital facility identified in the adopted infrastructure improvements plan for which a development fee was assessed pursuant to the fee report. If the gross impact fee for a particular category of necessary public service is adopted at an amount lower than the plan-based cost per EDU, the amount of any credit shall be reduced in proportion to the difference between the plan-based cost per EDU and the gross impact fee adopted. A credit shall not exceed the actual costs the applicant incurred in providing the eligible capital facility.
- D. Allocation of credits. Before credits can be issued to a subject development (or portion of it), credits must be allocated to that development as follows:
1. The developer and the town must execute a credit agreement including all of the following:
 - a. The total amount of the credits resulting from provision of an eligible capital facility.
 - b. The estimated number of EDUs to be served within the subject development.
 - c. The method by which the credit values will be distributed within the subject development.
 2. It is the responsibility of the developer to request allocation of development impact fee credits through an application for a credit agreement (which may be part of a development agreement entered into pursuant to section 17-17-13 below).
 3. If a building permit is issued or a water/sewer connection is purchased, and a development impact fee is paid prior to execution of a credit agreement for the subject development, no credits may be allocated retroactively to that permit or connec-

tion. Credits may be allocated to any remaining permits for the subject development in accordance with this chapter.

4. If the entity that provides an eligible capital facility sells or relinquishes a development (or portion of it) that it owns or controls prior to execution of a credit agreement or development agreement, credits resulting from the eligible capital facility will only be allocated to the development if the entity legally assigns such rights and responsibilities to its successor in interest for the subject development.
5. If multiple entities jointly provide an eligible capital facility, both entities must enter into a single credit agreement with the town, and any request for the allocation of credit within the subject development must be made jointly by the entities that provided the eligible capital facility.
6. Credits may only be reallocated from or within a subject development with the town's approval of an amendment to an executed credit agreement, subject to the following conditions:
 - a. The entity that executed the original agreement with the town, or its legal successor in interest and the entity that currently controls the subject development are parties to the request for reallocation.
 - b. The reallocation proposal does not change the value of any credits already issued for the subject development.
7. A credit agreement may authorize the allocation of credits to a non-contiguous parcel only if all of the following conditions are met:
 - a. The entity that executed the original agreement with the town or its legal successor in interest, the entity that currently controls the subject development, and the entity that controls the non-contiguous parcel are parties to the request for reallocation.
 - b. The reallocation proposal does not change the value of any credits already issued for the subject development.
 - c. The non-contiguous parcel is in the same service area as that served by the eligible capital facility.
 - d. The non-contiguous parcel receives a necessary public service from the eligible capital facility.
 - e. The credit agreement specifically states the value of the credits to be allocated to each parcel and/or EDU, or establishes a mechanism for future determination of the value of the credits.
 - f. The credit agreement does not involve the transfer of credits to or from any property subject to a development agreement.

E. Credit agreement. Credits shall only be issued pursuant to a credit agreement that conforms to the requirements set forth in paragraph 17-17-12 D above. The town manager or authorized designee is authorized by this chapter to enter into a credit agreement with the controlling entity of a subject development, subject to the following:

1. The developer requesting the credit agreement shall provide all information requested by the town to allow it to determine the value of the credit to be applied.
2. An application for a credit agreement shall be submitted to the town by the developer within one year of the date on which ownership or control of the capital facility passes to the town.
3. The developer shall submit a draft credit agreement to the town manager or authorized designee for review in the form provided to the applicant by the town. The draft credit agreement shall include, at a minimum, all of the following information and supporting documentation:
 - a. A legal description and map depicting the location of the subject development for which the credits are being applied. The map shall depict the location of the capital facilities that have been or will be provided.
 - b. An estimate of the total EDUs that will be developed within the subject development depicted on the map and described in the legal description.
 - c. A list of the capital facilities, associated physical attributes, and the related costs as stated in the infrastructure improvements plan.
 - d. Documentation showing the date of acceptance by the town, if the capital facilities have already been provided.
 - e. The total amount of the credits to be applied within the subject development and the calculations leading to the total amount of the credits.
 - f. The credits to be applied to each EDU within the subject development for each category of necessary public services.
4. The town's determination of the credits to be allocated is final.
5. Upon execution of the credit agreement by the town and the applicant, credits shall be deemed allocated to the subject development.
6. Any amendment to a previously approved credit agreement must be initiated within two years of the town's final acceptance of the eligible capital facility for which the amendment is requested.

7. Any credit agreement approved as part of a development agreement shall be amended in accordance with the terms of the development agreement and section 17-17-13 below.
- F. Issuance of credits. Credits allocated pursuant to subparagraph 17-17-12 D above may be issued and applied toward the gross impact fees due from a development, subject to the following conditions:
1. Credits issued for an eligible capital facility may only be applied to the development impact fee due for the applicable category of necessary public services, and may not be applied to any fee due for another category of necessary public services.
 2. Credits shall only be issued when the eligible capital facility from which the credits were derived has been accepted by the town or when adequate security for the completion of the eligible capital facility has been provided in accordance with all terms of an executed development agreement.
 3. Where credits have been issued pursuant to subparagraph 17-17-12 F. 2 above, an impact fee due at the time a building permit is issued shall be reduced by the credits stated in or calculated from the executed credit agreement. Where credits have not yet been issued, the gross impact fee shall be paid in full, and a refund of the credits shall be due when the developer demonstrates compliance with subparagraph 17-17-12 F. 2 above in a written request to the town.
 4. Credits, once issued, may not be rescinded or reallocated to another permit or parcel, except that credits may be released for reuse on the same subject development if a building permit for which the credits were issued has expired or been voided and is otherwise eligible for a refund under subparagraph 17-17-15 A. 2. a.
 5. Notwithstanding the other provisions of this section 17-17-12, credits issued prior to January 1, 2012 may only be used for the subject development for which they were issued. The credits may be transferred to a new owner of all or part of the subject development in proportion to the percentage of ownership in the subject development to be held by the new owner.

17-17-13 Development agreements

- A. General. Development agreements containing provisions regarding development impact fees, development impact fee credits, and/or disbursement of revenues from development impact fee accounts shall comply with the requirements of this section.
- B. Development agreement required. A development agreement is required to authorize any of the following:
1. To issue credits prior to the town's acceptance of an eligible capital facility.

2. To allocate credits to a parcel that is not contiguous with the subject development and that does not meet the requirements of subparagraph 17-17-12 D. 7 above.
3. To reimburse the developer of an eligible capital facility using funds from development impact fee accounts.
4. To allocate different credit amounts per EDU to different parcels within a subject development.
5. For a single family residential dwelling unit, to allow development impact fees to be paid at a later time than the issuance of a building permit as provided in subparagraph 17-17-13 H below.

C. General requirements. All development agreements shall be prepared and executed in accordance with A.R.S. § 9-500.05 and any applicable requirements of the town code. Except where specifically modified by this section, all provisions of section 17-17-12 shall apply to any credit agreement that is authorized as part of a development agreement.

D. Early issuance of credits. A development agreement may authorize the issuance of credits prior to acceptance of an eligible capital facility by the town when the development agreement specifically states the form and value of the security (i.e. bond, letter of credit, etc.) to be provided to the town prior to issuance of any credits. The town shall determine the acceptable form and value of the security to be provided.

E. Non-contiguous allocation of credits. A development agreement may authorize the allocation of credits to a non-contiguous parcel only if all of the following conditions are met:

1. The non-contiguous parcel is in the same service area as that served by the eligible capital facility.
2. The non-contiguous parcel receives a necessary public service from the eligible capital facility.
3. The development agreement specifically states the value of the credits to be allocated to each parcel and/or EDU, or establishes a mechanism for future determination of the credits.

F. Uneven allocation of credits. The development agreement must specify how credits will be allocated amongst different parcels on a per-EDU basis, if the credits are not to be allocated evenly. If the development agreement is silent on this topic, all credits will be allocated evenly amongst all parcels on a per-EDU basis.

G. Use of reimbursements. Funds reimbursed to developers from impact fee accounts for construction of an eligible capital facility must be utilized in accordance with applicable law for the use of town funds in construction or acquisition of capital facilities, including A.R.S. § 34-201, et seq.

- H. Deferral of fees. A development agreement may provide for the deferral of payment of development impact fees for a residential development beyond the issuance of a building permit; provided that a development impact fee may not be paid later than 15 days after the issuance of the certificate of occupancy for that dwelling unit. The development agreement shall provide for the value of any deferred development impact fees to be supported by appropriate security, including a surety bond, letter of credit, or cash bond.
- I. Waiver of fees. If the town agrees to waive any development impact fees assessed on development in a development agreement, the town shall reimburse the appropriate development impact fee account for the amount that was waived.
- J. No obligation. Nothing in this section obligates the town to enter into any development agreement or to authorize any type of credit agreement permitted by this section.

17-17-14 Appeals

- A. General. A development impact fee determination by town staff may be appealed in accordance with the procedures set forth in this section.
- B. Limited scope. An appeal shall be limited to disputes regarding the calculation of the development impact fees for a specific development and/or permit and calculation of EDUs for the development.
- C. Form of appeal. An appeal shall be initiated in a format prescribed by the town, and shall be submitted to the town engineer.
- D. Department action. The town engineer shall act upon the appeal within 30 calendar days of the filing of the appeal, and the applicant shall be notified of the town engineer's decision in writing.
- E. Appeal to council. The applicant may appeal the decision of the town engineer to the council by submitting an appeal to the town clerk within 14 calendar days of the town engineer's written decision.
- F. Action by council. The council shall hear and act upon the appeal within 45 calendar days of receipt of the appeal, and the applicant shall be notified of the council's decision in writing.
- G. Final decision. The council's decision regarding the appeal is final.
- H. Fees during pendency. Building permits may be issued during the pendency of an appeal if the applicant (1) pays the full impact fee calculated by the town at the time the appeal is filed or (2) provides the town with financial assurances in the form acceptable to the town manager or authorized designee equal to the full amount of the impact fee. Upon final disposition of an appeal, the fee shall be adjusted in accordance with the decision rendered, and a refund paid if warranted. If the appeal is denied by the council, and the applicant has provided the town with financial as-

surances as set forth in clause (2) above, the applicant shall deliver the full amount of the impact fee to the town within ten days of the council's final decision on the appeal. If the applicant fails to deliver the full amount of the impact fees when required by this subsection, the town may draw upon such financial assurance instruments as necessary to recover the full amount of the impact fees due from the applicant.

17-17-15 Refunds of development impact fees

A. Refunds. A refund (or partial refund) will be paid to any current owner of property within the town who submits a written request to the town and demonstrates that:

1. The permit that triggered the collection of the development impact fee has expired or been voided prior to the commencement of the development for which the permit was issued and the development impact fees collected have not been expended, encumbered, or pledged for the repayment of financing or debt; or
2. The owner of the subject real property or its predecessor in interest paid a development impact fee for the applicable capital facility on or after August 1, 2014, and one of the following conditions exists:
 - a. The capital facility designed to serve the subject real property has been constructed, has the capacity to serve the subject real property and any development for which there is reserved capacity, and the service which was to be provided by that capital facility has not been provided to the subject real property from that capital facility or from any other infrastructure.
 - b. After collecting the fee to construct a capital facility the town fails to complete construction of the capital facility within the time period identified in the infrastructure improvements plan, as it may be amended, and the corresponding service is otherwise unavailable to the subject real property from that capital facility or any other infrastructure.
 - c. For a category of necessary public services other than water or wastewater facilities, any part of a development impact fee is not spent within ten years of the town's receipt of the development impact fee.
 - d. Any part of a development impact fee for water or wastewater facilities is not spent within 15 years of the town's receipt of the development impact fee.
 - e. The development impact fee was calculated and collected for the construction cost to provide all or a portion of a specific capital facility serving the subject real property and the actual construction costs for the capital facility are less than

the construction costs projected in the infrastructure improvements plan by a factor of 10% or more. In such event, the current owner of the subject real property shall, upon request as set forth in this section, be entitled to a refund for the difference between the amounts of the development impact fee charged for and attributable to such construction cost and the amount the development impact fee would have been calculated to be if the actual construction cost had been included in the fee report. The refund contemplated by this subsection shall relate only to the costs specific to the construction of the applicable capital facility and shall not include any related design, administrative, or other costs not directly incurred for construction of the capital facility that are included in the development impact fee as permitted by A.R.S. § 9-463.05.

- B. Earned interest. A refund of a development impact fee shall include any interest actually earned on the refunded portion of the development impact fee by the town from the date of collection to the date of refund. All refunds shall be made to the record owner of the property at the time the refund is paid.
- C. Refund to government. If a development impact fee was paid by a governmental entity, any refund shall be paid to that governmental entity.

17-17-16 Oversight of development impact fee program

- A. Annual report. Within 90 days of the end of each fiscal year, the town shall file with the town clerk an unaudited annual report accounting for the collection and use of the fees for each service area and shall post the report on its website in accordance with A.R.S. § 9-463.05 (N) and (O), as amended.
- B. Biennial audit. In addition to the annual report described in paragraph A of this section, the town shall provide for a biennial, certified audit of the town's land use assumptions, infrastructure improvements plan and development impact fees.
 - 1. An audit pursuant to this subsection shall be conducted by one or more qualified professionals who are not employees or officials of the town and who did not prepare the infrastructure improvements plan.
 - 2. The audit shall review the collection and expenditures of development fees for each project in the plan and provide written comments describing the amount of development impact fees assessed, collected, and spent on capital facilities.
 - 3. The audit shall describe the level of service in each service area, and evaluate any inequities in implementing the infrastructure improvements plan or imposing the development impact fee.

4. The town shall post the findings of the audit on the town's website and shall conduct a public hearing on the audit within 60 days of the release of the audit to the public.
5. For purposes of this section a certified audit shall mean any audit authenticated by one or more of the qualified professionals conducting the audit pursuant to subparagraph [17-17-16 B. 1 above](#).
